

## Describe a useful skill that you learned from a math class

You should say

What skill you learned

How you learned it

Who taught you that

And explain why you think it is a useful skill

**what:** X ♥ math, no picnic, try my best; basic, addition+subtraction+multiplication+division, everybody, grandma, three years

**how:** primary, first year

**who:** Ms Cheng, serious+strict, wrong, punish, stick, nightmare, brains

**why:** every day 故事—fruit, apples+peaches+oranges, calculator, in my head

no picnic 很难

a big fan of ... 非常喜欢...

I was never good at this subject 我从来不擅长这个科目

try my best 尽自己最大的努力

addition 加法

subtraction 减法

multiplication 乘法

division 除法

and stuff like that 等等

serious 严肃的

strict 严格的

get an answer wrong/correct 得出错误/正确的答案

punish 惩罚

stick 小棍子

nightmare 噩梦

work on a problem 做一道题

rack my brains 绞尽脑汁

over and over again 一遍又一遍...

pick out sth 挑选出...

pull out her calculator 掏出她的计算器

be proud of myself 为自己感到骄傲
