SECTION 4

Today we continue our series on ecology and conservation with a look at a particularly endangered member of the black bear family. One in ten black bears is actually born with a white coat, which is the result of a special gene that surfaces in a few. Local people have named it 'the spirit bear'. And according to the legends of these communities, its snowy fur brings with it a special power. Because of this, it has always been highly regarded by them

Q31

Q32

何琼雅思原创课件

课程主页heqiong.ke.qq.com 微博@何琼J

腾讯课堂独家直播

7/11/2018

- Habitat is being lost due to deforestation and construction of **36** by logging companies.
- Unrestricted **37** is affecting the salmon supply.
- The bears' existence is also threatened by their low rate of **38**

The greatest threat to the bear's existence is the loss of its habitat. Over many years, logging companies have stripped the land by cutting down a large number of trees. In addition, they have built roads which have fractured the areas where the bear usually feeds, and many hibernation sites have also been lost. The logging of the trees along the streams has damaged the places where the bears fish. To make matters worse, the number of salmon in those streams is declining because there is no legal limit on fishing at the moment.

Q36

Q37

All these influences have a negative impact on the spirit bear's very existence, which is made all the more fragile by the fact that reproduction among these bears has always been disappointingly low.

Q38

何琼雅思原创课件

课程主页heqiong.ke.qq.com 微博@何琼J

腾讯课堂独家直播

7/11/2018

Going forward

- Interested parties are working together.
- Logging companies must improve their **39** of logging.
- Maintenance and **40** of the spirit bears' territory is needed.

And so, what's the situation going forward? Community organizations, environmental groups and the British Columbia government are now working together on the problem. The government is now requiring logging companies to adopt a better logging method, which is a positive step. However, these measures alone may not be sufficient to ensure a healthy population of the spirit bear in the future.

Q39

Other steps also need to be taken. While it is important to maintain the spirit bear's habitat, there also needs to be more emphasis on its expansion. The move is justified as it will also create space for other bears that are losing their homes ...

8-2-3

Questions 25–30

Complete the summary below.

Write **ONE WORD ONLY** for each answer.

Looking for Asian honey bees

Birds called Rainbow Bee Eaters eat only **25** , and cough up small bits of skeleton and other products in a pellet.

Researchers go to the locations the bee eaters like to use for **26**

They collect the pellets and take them to a **27** for analysis.

Here **28** is used to soften them, and the researchers look for the **29** of Asian bees in the pellets.

The benefit of this research is that the result is more **30** than searching for live Asian bees.
