消失在你的世界里。

辛苦老师啦～

better

Education played ~~ed~~ an important role in students' life. It not only ~~can~~ help them ~~be useful to the society~~ but also fulfill their dreams.

Students will become ~~a~~ valuable person to society by learning skills and knowledge at school. Because of this, they ~~can~~ relevant to the needs of employers and have many opportunities to get jobs. For example, students with teamwork skill ~~can~~ perform better in their workplace and they can improve work efficiency ~~for their company~~.

Education can help students fulfill their dream and develop their personal abilities. This can boost ~~social innovation~~. Schools provide various kinds of courses to broaden students' horizons. Students will ~~create many new ideas~~ from these courses. Students only focus on ~~society needs~~, and they will ~~lost~~ their own innovative ideas.

Education should help students to become ~~contributing members~~ of society. In this way, students will have social responsibility and ~~service to~~ society. For instance, students with social responsibility will consider other members' benefits and pay attention to environmental protection. Otherwise, people focusing on their own ambitions might become selfish.
