Crested pigeon

The rock dove or rock pigeon is a member of the bird family Columbidae (doves and pigeons). In common usage, this bird is often simply referred to as the "pigeon". Pigeons, especially [homing](#) or [carrier](#) breeds, are well known for their ability to find their way home from long distances.

Rock dove

Their most distinctive behaviour is the beating and whistling sound their wings make when they take off

This species is relatively quiet for a pigeon

Gala *** pigeon

→ ...It will poison them so they eat a leaves from a certain tree

It is a large pigeon, measuring 40 cm (16 in) in length. The head is grey, like the upper neck plumage, which turns into green and copper hackles. The tail is very short and pure white. The rest of its plumage is metallic green.

So the best way to contact him is by Email because he would reply as he saw it. (In the recording the teacher also said that the phone call would turn into voicemail if there's no one reply it.
