

ELTS Speaking Part 1 Questions: Do you like...?

Do you like shopping?

Yeah, I really love shopping! And I guess the main reason I like it so much is that I enjoy chatting with my friends while we look around all the shops.

Are you very interested in art?

Yes I am, I think art's great! I mean, I've always enjoyed looking at good drawings and paintings, and I've actually got a few up on my walls at home which I did myself.

Do you like cooking?

Yeah, I like cooking (quite) a lot, because I find it quite relaxing, and it's a nice feeling to see other people enjoying the food I've prepared for them. The only downside is the washing up, which I really can't stand doing!

Do you like your neighbours?

Yes I do. And the reason is that they're all really nice, so I guess I'm a quite lucky in this respect!

Do you like reading newspapers?

No, I don't (really) like reading them that much, basically because they take too long to read, and I don't really find them all that informative

Did you enjoy primary school?

No, not particularly, because none of the classes were that interesting. But saying that, I did make quite a few good friends there, so in that respect it wasn't too bad.

Did you like painting when you were a child?

Yeah, I used to like painting quite a lot when I was young, basically because I found it really fun to create my own pictures. And I remember my art classes were by far the most enjoyable of all the classes I had at school.

Did you like painting when you were a child?

No, I didn't (really) used to like painting that much, mainly because it was too time-consuming, and so I always tended to lose concentration.

Do you like playing sport?

No, I don't like playing sport at all, and have never been interested in it, partly because I'm not that good at it, and also because it's too much effort. So I can never usually be bothered.

Do you like dancing?

No, not really, mainly because I can't dance to save my life! So I always tend to feel quite self-conscious when I'm dancing with other people around
