

Describe a person you know who dresses well

You should say

Who the person is

How you know them

What clothes they like to wear

And explain why you think they dress well

Ok then, well the person that I'd like to talk to you about is a good friend of mine called Franc, because he always dresses really well, at least whenever I see him anyway!

And firstly, as for how I know him, well, I basically got to know him at a company I used to work at. We've actually both left that company now but we still stay in pretty close touch.

And um, going on to what clothes he likes to wear, well uh, I guess it's mainly formal clothes, like a suit, tie, long-sleeve shirt, dark trousers, leather shoes, that kind of thing. And even when he's not working, he still dresses pretty smartly. For example, I've noticed that he always wears a shirt with a collar, and I mean, I don't think I've ever seen him in a T-Shirt!

But anyway, in terms of why I think he dresses well, um firstly, his shirts are always impeccably ironed, you know, there's never a crease in them. And um, another thing is that he wears cufflinks a lot of the time, which look super smart, you know, not just plain buttoned sleeves. And um...what else?.....oh yeah, his shoes are always nicely polished and shiny, not dirty and scruffy like a lot of the shoes you see guys wearing!

And he also sometimes wears a waistcoat underneath his suit, which I think really gives a positive impression in terms of his professionalism. You know, the fact that he goes to such lengths to look smart and presentable gives the impression that he puts the same amount of care and attention into his work as well.

So um yeah, that's pretty much it. Thanks for listening!
