

Some people think separate teaching can positively influence children's study.
Do you agree or disagree?

- advanced students
- mediocre students
- slow learner

Some people suggest that today's schools should apply separate teaching, based on children's academic performance.
Do you agree or disagree?

- ✓ children: customized teaching/learning ✓
- parents
- ✓ teachers: reduce pressure on lesson planning
- ✓ schools: education outcome -> reputation of schools ✓

demotivate students

likely to limit teachers' future development

reduce the diversity of school education

2. Another negative influence is that the fast pace of living can cause problems for city dwellers' mental condition.

原因 + 适当补充: the stress of living <- high expenditure / personal development / solitary lifestyle

结果 + 适当补充: mental disorder, such as insomnia, anxiety, depression

对比: By contrast, much less workload in relatively smaller cities

论点: paper books offer authentic reading experience.

原因 + 补充: the feeling of flipping pages, the texture of paper, the aroma

结果 + 补充: readers are more likely to emerge in the process of reading

对比: e-books / cause distraction for readers / long screen time -> cause eye problems
