

小作文请注意:

1. 动词的时态
 2. 写作格式 (段间提行、或段首空两格)
 3. 标点符号误用 (句子中间隔开、并列、部分连接词后, 需要用逗号; 两句之间用句号。)
 4. 题目关键词重复较多次 (average carbon dioxide emission/或carbon dioxide emisison per people)
 5. 没有写数据, 或忽略了一些关键数据 (Italy & Portugal)
 6. 在总结中增加了自己的评价
 7. 分段过少(导致过渡生硬) 或过多(导致某一段只有1句话)
 8. reach后面加了介词 (reach是为数不多的直接加数据的动词 reach 10 metric tonnes)
 9. 单位用错、单位重复太多次、或完全没有写单位 (metric tonnes 不等于 tonnes)
- * 单位可以在第一次写的时候写完整, 后方用括号写出简写, 如: 8 metric tonnes (mt), 之后就可以沿用简写的mt

静态图:

1. *数据表达不太清楚 (句型上可以借鉴第二次课件的补充)
2. 时态的误用 (静态图如果没有明确的时间, 则采用一般现在时)
3. 字数太多, 需要精简 (由于图形信息复杂, 相比之下很小的以及不重要的数据可以略写)

*小技巧: 在不知如何写数据时, 可以用括号来给出, 如:

The percentage of older customers buying classical music (over 20%) is much higher than t

4. 本次写作较突出的语法问题: 缺少谓语或多谓语

- The percentage of people aged from 25 to 34 buy rock music is the highest.
- There are only about 10% of men and women purchase classical music.

5. 本次写作较突出的图形理解问题: 数据的意义理解偏差

6. 人群的表达不正确

People in 16-24 (错误)

People from 16 to 24 / people between 16 and 24 / people in the group of 16-24

Young customers (16-24) / older buyers (45+)

以下是一些比较好的表达补充，可以用于今后的静态图写作

1. ... vary (varies) considerably across different age groups. (不同年龄段的人在...方面差异很大)
People's preference for music varies considerably across different age groups.

2. The percentage/proportion of ... reaches n%, (...的比例达到了n%)

which is m% higher than that of their ... counterparts. (这比...高出m%)

- The percentage of male customers reaches roughly 25%,
which is about 8% higher than that of their female counterparts.

- The proportion of older buyers (above 45) reaches 20%,
which is about 15% higher than that of their younger counterparts.

- △ The proportion of older buyers (above 45) reaches 20%,
which is almost four times as many as that of their younger counterparts.

是...的xx倍: xx times as many/much as

比...多xx倍: xx times more than

3. The situation is similar for ... / This is also true for ... (用于衔接上下文的相似特征)
This is also true for people from 35 to 44, although their buying rates are lower.

4. Regardless of ...

Regardless of music genre, the male purchase more albums than the female.

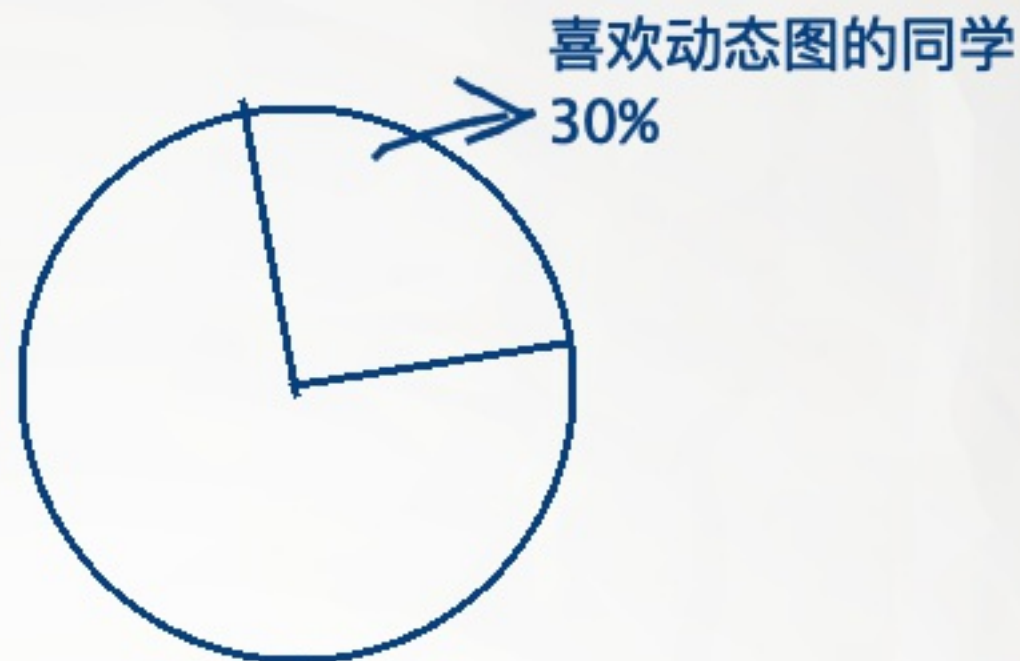

a clear overview ✓

the men [the male customers] ✓

占据:

take up
make up
account for

..% of the total

rock music / 25-34 / 33%

People from 25 to 34 who buy rock music albums take up 33% of the total.

33% of customers from 25 to 34 would make a purchase for rock music albums.

因为..., 所以.....。是否同意。

Some people think governments should not allocate funding for international aid, because there are disadvantaged groups in their own countries, such as the homeless and those in poverty.
To what extent do you agree or disagree?

In my opinion, it is true that vulnerable groups in every nation need governments' attention, but this does not mean that international aid is out of the question.

In my opinion, it is essential for rich nations to provide a variety of supports for less developed countries, but this does not mean that financial aid makes no difference.
