## Describe a time when you had to wait in a traffic jam.

You should say:

When and where it happened

How long you were stuck due to bad traffic

What you did while waiting

And explain how you felt when you were stuck in that traffic jam.

### 1. 堵车的经历

I'd like to talk about the time when I **got stuck in a traffic jam**<sup>1</sup> on the **highway**.

It happened during the last **national** day holiday. At the time, my parents and I were **driving** to visit my **grandma** who lives in another city **about a 2-hour drive away**<sup>2</sup>. There's a **highway** on the route to her place. We have to **pay the toll**<sup>3</sup> every time we pass there. It was a **holiday** that day, so **tons** of people were also going out of town. There were **huge** lines of cars waiting to pass the toll station. The traffic **moved at a snail's pace**<sup>4</sup> when we were still **kilos** from the **toll booth**<sup>5</sup>.

We had to waste a **whole** hour waiting to pay the toll. There was **nothing** else to do but **scroll on my phone** to pass the time, and I even had to **put up with**<sup>6</sup> other cars **cutting** in line and **honking**<sup>7</sup>, which was really **annoying**. But one thing **cheered me up**<sup>8</sup> a little. Among the cars **jamming** there, one driver **put on music** in his car. It's sung in **Sichuan** dialect, which is **hilarious**. While the beat was **playing**, several guys in other cars nearby **rapped** together. They **stuck their heads out their window**<sup>9</sup> and started **singing**.

So those happy people made the waiting **not that hard** to put up with. That's **why** I remember this traffic jam so well. Still, I hope highway tolls can be **cancelled** one day to **improve** the traffic.

<sup>1</sup> got stuck in a traffic jam: 遇到交通堵塞

<sup>2</sup> about a 2-hour drive away: 两个小时车程之外

<sup>3</sup> pay the toll: 付过路费

<sup>4</sup> moved at a snail's pace: 动的像蜗牛一样慢

<sup>5</sup> toll booth: 收费亭

<sup>6</sup> put up with: 忍受...

<sup>7</sup> honking: 按喇叭

<sup>8</sup> cheered me up: 让我高兴

<sup>9</sup> stuck their heads out their window: 把头伸出窗外

## Describe a rule that you don't like

You should say:

What it is;

Why you don't like it;

How others feel about the rule;

And explain whether you've followed the rule.

## 2. 不喜欢的规则

Well, in my hometown, all **drivers** have to **pay a toll to get on the highway**<sup>10</sup>. I **don't** like this rule because it often makes cars **get stuck in traffic**, which wastes a **lot** of time.

I know this rule **well** because my **grandma** lives in another city **about a 2-hour drive away**. So my parents and I visit her by driving almost **every** weekend. There's a **highway** on the route to her place. We have to **pay** the toll every time we pass there. Since we always drive on it during **weekends** and **tons** of people are also going out of town, we often **get stuck at a toll station** at an exit of the highway. There are **huge** lines of cars waiting to pass the toll station **all** the time. The traffic usually **moves at a snail's pace** when we are still **kilos** from the **toll booth**.

I really hope that one day the **authorities**<sup>11</sup> **cancel** this rule of paying tolls to access the highway. It'll be so **great** if **all** the toll stations on the highway can be **removed**. They are really **a pain in the neck**. In **most** cases, I have to waste **an hour** waiting to **pay the toll**. There's **nothing** else to do but **scroll on my phone** to pass the time, and I even have to **put up with** other cars **cutting** in line and **honking**, which is really **annoying**.

So, I think the highway toll is a **terrible** rule. **It might be a long shot, but**<sup>12</sup> I hope it can be **gone** for good to **improve** the traffic.

<sup>10</sup> pay a toll to get on the highway: 上高速公路要交过路费

### Describe an interesting song.

You should say:

What the song is;

What story the song tells;

Whether the song is popular;

And explain why you think it is interesting.

### 3. 有趣的歌曲

I'd like to talk about a **rap** song called **'Daddy Ain't Going to Work Tomorrow'** sang by **Xie Di**, who is an excellent **rapper** and **songwriter** in China.

The **first** time I heard this song was when I was watching an **online** video on **Weibo**. The video happened during the last **national** day holiday. There was a **traffic jam** on a highway. To **pass** the time, one driver **put on music** in his car. It was the song I just said. It's sung in **Sichuan** dialect, which is **hilarious**. While the beat was **playing**, several guys in a car nearby **rapped** together. They **stuck their heads out their window** and started **singing**. Just like the **title** of the song, you could sense that these people are **going to be off work tomorrow** and **are on cloud nine** because of it.

I was **hooked on** the song right away. So I searched the **lyrics** of it on the internet. Every line speaks to the desire of **a working-class man**<sup>13</sup> who **doesn't** want to work but hopes to take a day **off**. It's definitely a **funny** song to listen to while you're **stressed out**. Actually it's Xie's **signature song**. It's said that **before** Xie Di became famous, he was also **working-class** just like the **majority** of us. But he **never** gave up on his passion for rapping. I think it is his **talent** and **grit** that helped him create this **popular** song. I hope he can write and sing **more hit songs** in the future. I'm looking forward to hearing **more** unique songs like this.

#### 4. (国家/家乡) 有名的人

I'd like to talk about **Xie Di**, who is an excellent **rapper** and **songwriter** in China. He **grew up in Chengdu the same as I did**, so I paid some **attention** to him.

The **first** time I knew him was when I was watching an **online** video on Weibo. It happened during the last **national** day holiday. There was a **traffic jam** on the highway. To **pass** the time, one driver **put on music**<sup>14</sup> in his car. It was a **rap** song called '**Daddy Ain't Going to Work Tomorrow**'. I found out **later** that it was Xie's **signature song**. He sings it in **Sichuan** dialect, which is **hilarious**. While the beat was **playing**, several guys in a car nearby **rapped** together. Just like the **title** of the song, you can sense that these people are **going to be off work tomorrow**<sup>15</sup> and **are on cloud nine**<sup>16</sup> because of it.

Since I'm from **Sichuan**, I was **hooked on**<sup>17</sup> the song right away. And I searched and listened to **more** songs of his on the internet. He was the first **hip-hop singer**<sup>18</sup> from my **hometown** who became **a national household name**<sup>19</sup>. So I **respect** him for that very much. It is said that **before** Xie Di became famous, he was also **working-class**<sup>20</sup> just like the **majority** of us. But he **never gave up on his passion for rapping**<sup>21</sup>. I think it is his **talent** and **grit**<sup>22</sup> that make him successful. I'm very **proud** of a young celebrity from **my hometown** who has **come a long way in music**<sup>23</sup>.

**Describe a skill that you learned from older people.**

You should say:

What it is;

Who you learned it from;

How you learned it;

And how you feel about it.

**5. 向长者学习技能**

Speaking of a **skill** I learned from someone **older** than me, the **first** one that **comes to mind** is how I learned to take photos with a **single-lens reflex camera**<sup>24</sup>. Last year, I became **obsessed** with **DSLR** cameras because they shoot **way** better pictures than mobile phones do. So I wanted to learn some **photography** skills **really bad**<sup>25</sup>.

You know, being a photographer **isn't a walk in the park**<sup>26</sup>. Luckily, my **uncle**, who is my mom's **brother**, is a **great** photographer. He's in his **fifties** and has been a professional photographer for over **30** years. So I tried to learn as **much** as possible from him. My uncle was very **patient** with me. He taught me a lot of **basic theories** of photography, like **composition, lighting and timing**<sup>27</sup>. He also gave me a ton of **hands-on experience**<sup>28</sup>. For example, on weekends he often took me somewhere **beautiful** to take pictures. He taught me **step by step**<sup>29</sup> how to **adjust the camera's mode and exposure level**<sup>30</sup> to suit **different** environments and **brightness levels**<sup>31</sup>.

Honestly, **it's easier said than done**<sup>32</sup>. I really **tried** to operate the camera the way my uncle taught me. Now I shoot **way** better pictures than before, and I learned a **lot** about composition. But **to be frank**, there are still a lot of **techniques** I need to practice. The **night** photos I take often look **blurry**.

So, I've only **scratched the surface of**<sup>33</sup> photography. I will keep learning **more** from my uncle. I really look forward to making a **great work portfolio**<sup>34</sup> to share with him.

You should say:

What your ambition is;

How long you have had this ambition;

How you plan to achieve it (or what you have done);

And explain why you haven't achieved it yet.

### 6. 未实现的志向

I've always had a dream of being a **photographer**. My **uncle**, who's my mom's **brother**, has been a **professional** photographer for 30 years. So **I know the ins and outs of<sup>35</sup>** the job **pretty** well. You get to take photos at places with **beautiful** views and you can get **decent** pay for it. So it's **definitely** my dream job.

However, being a photographer **is not a walk in the park**. You have to know a **ton** of **basic theories** of photography, like **composition, lighting and timing**. Luckily, our school offers an **elective course** of photography, and I took it **last semester**. The instructor gave us a ton of **hands-on experience**. For example, he taught us **step by step** how to **adjust the camera's mode and exposure level** to suit **different** environments and **brightness levels**.

Honestly, **it's easier said than done**. I really listened to each class **carefully** and **tried** to operate the camera like the instructor taught us. I do shoot **way** better pictures than before, and I learned a **lot** about composition. But **to be frank**, there are still a lot of **techniques** I need to practice. The **night** photos I take often look **blurry**.

So, I've only **scratched the surface of** photography. I need **more** shooting experience to **get the hang of it**. Actually my plan is to make a **great work portfolio** first, then I think it'll **be a breeze** for **me to** make a **living** from photography. I hope I can make my dream come **true** soon.

You should say:

- What the contest/competition is about;
- Where the contest/competition will take place;
- When it will be held;
- And explain why you would like to participate in it.

### 7. 想参加的比赛

The competition I want to take part in is an **annual photo contest** that my **hometown** holds. Actually, I've become **obsessed** with **DSLR** cameras for years. And I'm working **hard** to grasp this skill. I hope to **join** the **municipal photo contest**<sup>36</sup> this year to **test** my photography skills.

Shooting a good picture **is not a walk in the park**. You have to know a **ton** of **basic theories** of photography, like **composition, lighting and timing**. Luckily, our school offers an **elective course** of photography, and I took it **last year**. The instructor gave us a ton of **hands-on experience**. For example, he taught us **step by step** how to **adjust the camera's mode and exposure level** to suit **different** environments and **brightness levels**.

I really listened to each class **carefully** and **tried** to operate the camera like the instructor taught us. I shoot **way** better pictures than before, and I learned a **lot** about composition. So I'd **love** to sign up for **this year's** photo contest. I've learned that the **contest theme**<sup>37</sup> this year is the **landscape** of my hometown. I've already come up with some **plans**. Of course, **it'd be the cherry on top if**<sup>38</sup> I could win a **prize** by any chance. I might be able to make a **great work portfolio**, then I think it'll **be a breeze for me to**<sup>39</sup> make a **living** from photography. But even if I **don't** win anything, it'll still be a **great** learning experience for me by seeing more **great** artworks.

<sup>36</sup> municipal photo contest: 市级的摄影比赛

<sup>37</sup> contest theme: 比赛主题

<sup>38</sup> it'd be the cherry on top if: 如果...那可就是锦上添花了

How you knew him/her;

What he/she posts on social media;

**8. 社交媒体上常刷的人**

I'd like to talk about a **TikTok influencer**<sup>40</sup>. He's also a professional **photographer**. I started **being a fan of him** last **summer** when I had just **taken a liking to** **DSLR** photography. You know, DSLR cameras shoot **way** better pictures than mobile phones do. Of course, if you're **good** at it, it can even allow you to **moonlight** as a **photographer**.

So, to learn **more** about photography, I followed **several** popular bloggers and influencers. He's **one** of them. I often watch his **videos** on TikTok because not only does he show **beautiful** examples of his photography, but he also **teaches** the audience a ton of **basic theories**, like **composition**, **lighting and timing**. I was especially impressed by a **video** in which he taught us **step by step** how to **adjust the camera's mode and exposure level** to suit **different** environments and **brightness levels**.

I'm so **grateful** to this TikTok influencer for **sharing** so many tips in his videos with us. I do shoot **better** pictures than before, and I learned a **lot** about composition. But **to be frank**, there are still a lot of **techniques** I need to practice. The **night** photos I take often look **blurry**.

So, I've only **scratched the surface of** photography. I need **more** shooting experience to **get the hang of it**. And I will **continue following his account**<sup>41</sup> and learn from him. It's **rare** to find such a **good** way to learn so much **real stuff**<sup>42</sup> about photography.

<sup>40</sup> influencer: 网红

<sup>41</sup> following his account: 关注他的账号

**Describe the thing that you cannot live without (except phone and internet)**

You should say:

What it is;

Why you can't manage without it;

How long you have had it for;

And explain how you felt when you were without it.

**9. 生活中不可或缺的东西**

I'm a **big fan of**<sup>43</sup> **photography**, so I'd like to talk about a **single-lens reflex camera** I bought. Just like others who take photos for a **hobby** or a **living**, I **couldn't** live without it.

I bought this camera **last year**. At the time, I **was obsessed with** learning how to take **photos** with a single-lens reflex camera. I'd been hoping to learn this skill for a **long** time because it sounds really **intriguing**. Luckily, our school offers **an elective course** of photography, and I took it **last** semester. Everyone was required to bring their **own camera** to class, so I bought my **first** DSLR camera for it.

It was a **beginner-level**<sup>44</sup> Sony DSLR that cost me **6000** yuan. It has a **silver-black exterior** and looks like an **old** style DV. To be honest, I **liked** the look of it, so I bought it **right away**.

It's a very good DSLR for **beginners** because it's **easy** to operate and has always been **user-friendly**<sup>45</sup> for me. I use it **from time to time**. The camera shoots **way better** pictures than my mobile phone does. Now it has become **a must-have device** on my family trips. Besides, I love using it to capture the **happy** and **sad** memories in life. I also took photos of the **sunrise** and **sunset** with it, as well as some beautiful moments with my **friends**. So, even though it **cost me an arm and a leg**<sup>46</sup>, I think I **make the most of it**<sup>47</sup> and it has definitely become **an essential piece of equipment** in my life.

**Describe an invention that has changed the world in a positive way.**

You should say:

What it is;

What benefits it has brought;

How it influences people of different ages;

And explain how it changed people's lives.

## 10. 让生活变得更好的发明

I'm a **big fan of** **photography**, so if I had to name one **invention** that made the world **better**, just like others who take photos for a **hobby** or a **living**, my answer would be the invention of the **camera** as well.

I learned a **lot** about **cameras** last summer. At the time, I **was obsessed with** learning how to take **photos** with **a single-lens reflex camera**. I'd been hoping to learn this skill for a **long** time because it sounds really **intriguing**. Luckily, our school offers **an elective course** of photography, and I took it **last** semester. In class, the teacher told us many **stories** about the **development** of the camera. I remember that the **first** person to invent the camera was a **Frenchman** 150 years ago. At the time, the camera looked like a **heavy wooden** box.

Nowadays, there are **countless** types and models of cameras that **suit everyone's needs**. Most of them are **easy** to operate and are always **user-friendly** for beginners. I think it's a really **great** invention because **most** people use cameras **from time to time**. It's **a must-have device** on many family trips. People love using it to capture the **happy** and **sad** memories in life. **In my own case**<sup>48</sup>, I like taking photos of the **sunrise** and **sunset** with my camera, as well as some beautiful moments with my **friends**. **Without** cameras, these beautiful moments might **never** have been captured and would be **harder to recall**<sup>49</sup> after years. So I think the camera has **enriched people's spiritual life**<sup>50</sup> and is an invention that **boosts people's happiness**<sup>51</sup>.

**Describe something in your home that you broke and then repaired.**

You should say:

What it is;

How you broke it;

How you repaired it;

And how you felt about it.

**11. 坏掉又修好的东西**

When it comes to something I repaired, I'd like to talk about a single-lens reflex camera I bought last year.

At the time, I was obsessed with learning how to take photos with a single-lens reflex camera. Luckily, our school offers an elective course of photography, and I took it last semester. Everyone was required to bring their own camera to class, so I bought my first DSLR camera for it. It was a beginner-level Sony DSLR that cost me 6000 yuan. It has a silver-black exterior and looks like an old style DV. I really like it because it's easy to operate and has always been user-friendly for me.

Unfortunately, half a year later, I accidentally dropped the camera on the ground while taking photos. The display screen was cracked<sup>52</sup>. I went to a repair shop, and the tech there said the screen replacement would cost 600 yuan. I didn't think it would be so expensive, so I decided to do it myself. Luckily, I bought a screen replacement kit<sup>53</sup> for my model online, and after receiving it, I carefully replaced the screen myself by following the instructions.

Eventually, I managed to fix it. You know, the camera is a must-have device<sup>54</sup> on my family trips. So I was over the moon<sup>55</sup> that I could fix it up<sup>56</sup>. Plus, I only spent 60 yuan on the repair, which gave me a sense of accomplishment as well. After all, a penny saved is a penny earned<sup>57</sup>.

<sup>56</sup> fix it up: 修好它

**Describe an occasion that you lost something in a public place.**

You should say:

What you lost;

When and where you lost it;

What you did to find it;

And explain how you felt about it.

**12. 丢失东西**

Speaking of something I **lost**, I'd like to talk about a **single-lens reflex camera** I bought last year. At the time, I **was obsessed with** learning how to take **photos** with a single-lens reflex camera. Luckily, our school offers **an elective course** of photography. Everyone was required to bring their **own camera** to class, so I bought my **first** DSLR camera for it. It was a **beginner-level** Sony DSLR that cost me **6000** yuan.

**Unfortunately**, half a year later, I **accidentally** lost the camera while taking photos. My parents and I were driving to Kunming to watch **seagulls** at the famous **Green Lake**. I took a **lot** of pictures there, but I **misplaced**<sup>58</sup> my camera later when I focused on **feeding** the birds. I was **freaking out** since it's worth **6000** yuan! 😭

I went back to the **lake shore** to check, but it **wasn't** there. Then I went to the park's **management** office to look for it. The staff told me I could check a **lost-and-found app** to see if anyone had **posted** about my camera. It was **brilliant** since I actually found a **post** of **my** camera. A **high school** student found it and **posted all the details about the lost camera**.

It was a **real** surprise to me<sup>59</sup>. I'm very **grateful** to that student. You know, the camera is a **must-have device** on my family trips. So I was **over the moon**<sup>60</sup> that I got it back. Now I **check my belongings multiple times**<sup>61</sup> everywhere I go. I **don't** want to make the same mistake again.

### 13. 困难但有好结果的决定

Last year, I made a **tough** decision to buy a **camera**. At the time, I **was obsessed with** learning how to take **photos** with **a single-lens reflex camera**. Luckily, our school offers **an elective course** of photography. But everyone was required to bring their **own camera** to class, which meant I had to **buy** a DSLR camera.

I did a **lot** of research and found most **decent**<sup>62</sup> cameras would cost me **5000** to **10,000** yuan. The one I intended to buy was a **beginner-level** Sony DSLR that was **6000** yuan. It has a **silver-black exterior** and looks like an **old** style DV. To be honest, I **liked** the look of it. But **as a student with no income**, buying this camera meant I would have to **scrimp and save for months**<sup>63</sup>. So I hesitated for a **long** time.

It was my **friend** who **talked me into it**. He says life is so **short**. You'll never **regret** spending money on your **hobby**. I think **what he said made sense**. I finally made up my mind and **bought** it. It turned out that I **didn't throw money down the drain**<sup>64</sup>. After I **started** taking the elective course, I really listened to each class **carefully** and **tried** to operate the camera like the instructor taught us. I shoot **way** better pictures than before, and I learned a **lot** about composition. I'm even thinking about making a **living** from photography. So **all in all**, it was **one of the hardest but also most gratifying decisions**<sup>65</sup> I've ever made.

**14. 对社会有贡献的人**

I think my **cousin's** work is very **meaningful** and **valuable** to society. He's running a **pet** shop that's **devoted to** cats. This is the **first** and **best** pet store in my hometown.

My cousin is very **young**, only in his early **thirties**. Many people who **don't** really know him think he's kind of a **hippie**<sup>66</sup> because he has **a weird sense of style**<sup>67</sup>. He often goes out wearing a **long** coat in **bright red** and **a leopard print blouse**<sup>68</sup>. He is definitely the **highlight** of a crowd. Everyone is **blown away** by his style. I've **never** seen a boss dressed like this. But he's actually a very **kind** and **gentle** person who loves **cats**. So he **came up with** the idea of opening a **pet** shop.

At the beginning, it was just a **small** shop that sold **cat food**. But he kept exploring **new** areas and **expanding** his business. Now his shop **dabbles in lots of things**<sup>69</sup>. They sell **a wide range of** cat products and provide services like **pet grooming**<sup>70</sup> and even a **cat café** where you can play with kittens.

I find my brother's work **valuable** because he's made lots of **contributions** to helping **cats** and their **owners**. You know, a lot of cat owners see their cats as **family members** who **keep them company**<sup>71</sup> and **soothe their mind**<sup>72</sup> every day. So helping the owners take **care** of the cats means a **lot** to my brother, which, **from my perspective**, is equivalent to a great **contribution** to society.

I'd like to talk about my **friend's cousin**. Last month, when I was hanging out with my **friend**, we **met up with**<sup>73</sup> his cousin who's running a **pet shop** that's **devoted to** cats.

My friend told me that many people who **don't** really know his cousin think he's kind of a **hippie** because he has **a weird sense of style**. It's **true**, because the **first** time I met him, he was wearing a **long** coat in **bright red** and **a leopard print blouse**. He is definitely the **highlight** of a crowd. I've **never** seen a boss dressed like this. So it gave me the **impression** that he is a very **unique** person.

Although he **had a lot on his plate**<sup>74</sup> that day and we only got to **exchange greetings**<sup>75</sup>, I could sense that he is **humble** and **driven** at work. Later my friend told me that his cousin hates those **9-5 office jobs**<sup>76</sup>. So he started his **own** business after college. At the beginning, it was just a **small** shop that sold **cat food**. But he kept exploring **new** areas and **expanding** his business. Now his shop is one of the **best** pet stores in my hometown.

I think **he's done quite well for himself**. I really admire a young man for having such **great** achievements. So I'd love to **have a proper conversation with him**<sup>77</sup>. I'm very **interested** in his experience of **starting up a business**, which I believe will **give me some insights**<sup>78</sup>. And it'd be **great** if we could become friends.

We **first** met when he just **moved** into the building. I saw him in front of the **elevator**. The **first** impression he gave me is that **he lives on his own terms**<sup>79</sup>. He has **a weird sense of style**. At the time, he was wearing a **long** coat in **bright red** and **a leopard print blouse**. He is definitely the **highlight** of a crowd. I've **never** seen someone dressed like this. So it gave me the **impression** that he is a very **unique** person.

That was **confirmed** after we talked more. He runs a **pet** shop that's **devoted to** cats. He said he hates those **9-5 office jobs**. So he started his **own** business after college. He's literally a **cat-pedia**<sup>81</sup>. You can ask him **whatever** questions you have about cats. Having such a friend is **wonderful** for a **cat owner** like **me**. I have **an orange cat**<sup>82</sup>. There was a time that it **wouldn't** eat and often **drooled**<sup>83</sup> at the mouth for several days. So I took the cat to **him**. He **figured out the cause** just in a **few** minutes. He gave me a few **Vitamin D** pills for cats, and also some **tips** about **how** to take care of a cat properly. He's so **professional**. So since then, I **often** talk about **cats** with him.

Besides, he **has a knack for** running a **business**. He always **comes up with a lot of original ideas** for his shop. I'd like to talk about the day I **worked** at my cousin's **shop**. He's running a **pet** shop that's **devoted to** cats. This is the **first** and **best** pet store in my hometown. Since I'm a **cat lover**, I thought it'd be **fun** to **give my cousin a hand**<sup>91</sup> at his shop. He **agreed** to it and said I could try it out for **one day** to see if it **suit**ed me<sup>92</sup>.

So on a **Sunday**, he made a **work schedule** for me to follow. Most of my job was **handling the odds and ends**<sup>93</sup>, which he said was **a must for interns**<sup>94</sup>. My cousin offers a **lot of after-sale services**. If you **become a member**, you can enjoy **tons of exclusive services** for free, like **pet grooming** and drinking **coffee** while playing with lots of **cute** kittens. So for that **entire Sunday**, I was either helping **bathe** the cats or **keeping an eye out for**<sup>95</sup> which kitty was trying to **sneak outside**<sup>96</sup>. I was **busy as a bee**<sup>97</sup> and even had to **run** to the washroom when I wanted to use it. **It's no exaggeration to say that**<sup>98</sup> even a cat lover like **me** wanted to stay **away** from cats after a **whole day's** work at his shop.

So I really learned how **hard** it is as **a pet-care worker**. And the experience made me **admire** my cousin even more. I think his success is **inseparable from** the terrific **service** he provides. So I **foresee** **bigger** success for his shop in the future.

She told me the staff members there are all **cat-pedias**. So I took the **cat** to this store. The staff there **checked** the cat first and gave me a few **Vitamin D** pills for cats. They even gave me some **tips** about **how** to take care of a cat properly. They didn't charge me **anything** for the pills. If you **become a member**, you can enjoy **tons of exclusive services** for free, like **pet grooming, cleaning** and even receiving a **free cake** as a gift on your **birthday**.

I remember the day **before** my last birthday, the shop sent me a **text message** to wish me a **happy birthday** and let me know that they prepared a **gift cake** for me. So **I went there all excited**<sup>108</sup> and received a **Hello Kitty** cheesecake that could serve **four to six** people. It had a **cute** drawing of a cat face on it. Most **importantly**, **there was writing on the cake that said**<sup>109</sup> "To my **owner** who takes care of me", which was clearly written from **my cat's** point of view.

I think this cake is **super** creative and it **totally** understands the **feelings** of cat owners. So I **was deeply impressed by** the cake and liked the shop even **more**. It's said the owner of the shop is **very** young, only in his early **thirties**. I really **admire** a young man for having such **great** achievements. I had an **interesting** discussion with several **classmates** when I was in **college**. It was during an **Economics** course. The professor gave us a **group assignment**<sup>110</sup> to create a **plan** for a **start-up business**<sup>111</sup>. So we had to discuss how to **handle** the assignment.

I remember our discussion was very **fruitful**<sup>112</sup>. We **all** had some ideas and mine was designing a plan to open a **pet shop**. You know, a lot of **cat owners** see their cats as **family members** who **keep them company** and **soothe their mind** every day. So I think there should be a **niche** market for **helping** people take care of their pets. Maybe what I said was more **convincing**. **Everyone was on board with my idea**<sup>113</sup>, so we continued to discuss a **possible** business in the form of a **pet** store.

We **came up with a lot of original ideas** for the store, such as providing services like **pet grooming** or building a **cat café** where you can play with kittens. Someone even suggested offering a **pet training** program. All of them were really **inspired** ideas. We ended up selecting **two** of them and created the **final** business plan together.

Our group **got a high mark for the assignment**<sup>114</sup>. So this discussion gave us a **great** sense of achievement. I **like** this kind of discussion because we can learn a **lot** from each other and it's also a **great bonding time for us**<sup>115</sup>. Group discussion is definitely a **fun** way to learn.

We often meet at a **coffee shop** which is about **a 15-minute walk from** our college. Usually, we **choose** a topic that we're **all** interested in and **discuss** it. For example, the **last** time we talked about opening a **pet shop**. You know, a lot of **cat owners** see their cats as **family members** who **keep them company** and **soothe their mind** every day. So this is a really **engaging** topic for us.

The discussion that day was very **fruitful**. We **came up with a lot of original ideas** for the pet store. Most **importantly**, **everyone** expressed their opinions in **English**. And I learned many **new** words related to cats and business. For example, one of us talked about providing services like **pet grooming**. And another person suggested offering a pet **training** program. I didn't know these **phrases**<sup>116</sup> until they shared them.

In fact, we had **tons of group talks**<sup>117</sup> like that. During **every** discussion, **I was immersed**<sup>118</sup> and kept **thinking** in English. So whenever our meetings **end**, I always feel my **spoken English** gets better. I really **like** this kind of discussion. All those fears and worries **went away** after I actually **started** this part-time job. And I found I **took a liking to this job bit by bit**. Sometimes I even **daydream**<sup>127</sup> about **starting up my own pet shop business**<sup>128</sup>. So I'm very **grateful** for my cousin's advice, which is not only helpful for my **work**, but also meaningful for my **life**.

- What gift you would like to buy;
- Who you would like to give it to;
- Why you would like to buy a gift for him/her;
- And explain why you choose that gift.

**27. 想要送朋友的礼物**

I'd like to give a **gift** to a friend of mine to show my **gratitude**. A few **months** ago, I was looking for a **part-time job** but **wasn't having any luck**<sup>129</sup>, so I **went to my friend for some advice**.

At the time, one of his friends had just opened a **pet shop** that's **devoted to cats**. So he **referred** me to him. I **doubted myself** at the beginning. But my friend **tried** his best to help me **see past my worries**. **It turned out that** he's **right**. Now I've been working here for **two months**, and I really **love** this job. So I think I should **send a thank you gift** to him.

I know he's very **obsessed** with **tabletop role-playing games**<sup>130</sup>, especially the ones that involve **detective** stories. So I was looking for something **engaging** for him. Recently, a **co-worker** of mine **highly recommended** a book to me. It's a Japanese **detective** novel called *Cat Knows All*. He said it's a **must-read** for anyone who **loves** detective novels. I checked the **brief introduction** of this book. The story starts with an **old gentleman** and his **cat**. One day when he's looking for his **lost** cat, he finds out that some people around him **have either vanished or died**. So he **unravels the mystery** while searching for the cat.

It seems like a **perfect** gift for those who love exploring **secrets**. So I've decided to give him this **book** as a gift. I believe my friend will **like** it. After all, **you can't go wrong by**<sup>131</sup> giving people what they **want**.

**28. 别人讲述的故事**

I'd like to talk about a story I heard from my **friend** when I was in **middle** school. It was a **Saturday night** and I was hanging out with my friends. One of them decided to tell us a **terrifying** and **mysterious** story to **test our nerves**<sup>132</sup>.

I **don't** remember many details of the story, but I can recall that it starts with an **old gentleman** who lives on an **island** with his cat. His **wife** passed away early in their marriage, so he **keeps a cat as company**. They eat and sleep **together**. But one day the cat **disappears**. The old man goes door to door to **find** the cat. But there are more **strange** things coming out. Some people **have either vanished or died**. So he **unravels the mystery** while searching for the cat. Finally, the cat is **found**. And it **leads** the old man and the detective to figure out the **real** murderer.

The story was so **engaging**<sup>133</sup> that I was **on the edge of my seat** trying to figure out **what** was going to happen. Sometimes, it even **gave me goosebumps**. It was a really **exciting** story. That's why I still **remember** it. I was even **afraid** of walking back home alone that night. 🤩

Anyway, although it's a little **scary**, I love the **attitude** towards life that the story **expressed**. **Life doesn't** always **go your way**, so it's better to **be content** with what you have. **Excessive** greed will **lead to bad karma**. That's what I **learned** from it. **On the whole**<sup>134</sup>, I like this **horrifying**<sup>135</sup> but also **inspirational** story.

**Describe a house or an apartment you would like to live in**

You should say:

What it is like;

Where it would be;

Why you would like to live in this house/apartment;

And how you feel about this house/apartment

**29. 想要的公寓或房子**

I hope to have a house built above **water**. **If memory serves correctly**, about **two** years ago, I stayed a night at a **Bed & Breakfast<sup>136</sup>** in **Kunming**. It was a **new** B&B that had just opened to the public. It's been my **favorite** place since my first visit. I really hope to own a **house** like **that** in the future.

The **interior design<sup>137</sup>** of the house is very **intriguing<sup>138</sup>**. But what I like **most** about it is that it's **set up in a very unusual location**. It's at a **huge** park that includes **a giant artificial lake**, as well as a pretty long **pavilion** above the lake. The house is built on a platform that **extends** from the pavilion. So it's built on the **water** and has a **huge deck**. You can **sip** a cup of coffee while enjoying **tons** of **mallards** and **seagulls** passing by on the water. It's especially **brehtaking** seeing **so many** birds taking off from the water. You know, it's **impossible** to see such a fantastic view at a **normal** hotel somewhere else.

So, after I lived there **once**, I've been **dreaming** of owning such a **fantastic** house. I know that living in a house above **water** seems like a **ridiculous<sup>139</sup>** dream as you **rarely** see buildings like that. But since they can build a **B&B** above water, I believe the **architects** can design **a residential house<sup>140</sup>** like that as well. I look forward to seeing a house in the **real estate market<sup>141</sup>** and I hope I can **afford** to buy it at the time.

### 30. 一个去过的新地方

During the **New Year's** holiday, I visited **Kunming** for the first time with my family. It's the capital of **Yunnan** Province. I really like the **climate** there. I think a **sunny** day with a **mild temperature**<sup>142</sup> around **twenty** Celsius is always the best. As far as I know, Kunming has good weather like this **all year round**.

What's more, there're **lots** of fun places in Kunming. For example, we went to the famous **Green Lake** there. We saw **tons** of **mallards**<sup>143</sup> and **seagulls**<sup>144</sup> passing by on the water. Sometimes they just swam around **at a leisurely pace**<sup>145</sup> for a while then **flew away** together. It was **breathtaking** seeing **so many** birds taking off from the water. You know, it's **impossible** to see such a fantastic view in the **north**. Plus, we saw a **rowing race**<sup>146</sup> there. That was the **first** time we saw this kind of match. Once it began, **dozens** of boats moved on the water **with drum beats and loud encouragement**<sup>147</sup>. And **every** boat was moving fast like a **fish** in water. It was so **exciting**.

**Besides** that, we ate one of the **specialty** snacks in Kunming called **vegan duck**<sup>148</sup>. It tastes like **duck** meat, but it's actually made of **mushrooms** and **bamboo shoots**<sup>149</sup>. I **was completely taken in by its look**<sup>150</sup> the first time I tried it.

So, there're many **unique** things you can explore in Kunming. It's **the southernmost city I have ever been to**<sup>151</sup> and I **really** like it. It's very **attractive** and **worth a visit**, whether you're going for the **food** or the **scenery** there.

You should say:

Where it is;

And explain why you would like to recommend the place.

### 32. 推荐他人居住的地方

In **my** opinion, there are **many** important factors to consider **when it comes to** finding a **livable** place.

I'm actually **thinking** about where I'll **move** to in the future. After doing a **lot** of research, I found the **perfect** place is **Kunming**, the capital of **Yunnan** Province. I really like the **climate** there. I think a **sunny** day with **a mild temperature** around **twenty** Celsius is always the best. As far as I know, Kunming has good weather like this **all year round**. So if you **love** spring, **this** is the place to live.

What's more, Kunming is a **beautiful** city **with lots of fun places to check out**<sup>153</sup>. For example, my parents and I went to the famous **Green Lake** there. Even though it was **January**, we saw **tons** of **mallards** and **seagulls** passing by on the water. Sometimes they just swam around **at a leisurely pace** for a while then **flew away** together. You know, it's **impossible** to see such a fantastic view in the **north**. Plus, there is a **rowing race** there **every year**. Once it began, **dozens** of boats moved on the water **with drum beats and loud encouragement**. And every boat was moving fast like a **fish** in water. It was so **exciting**.

Anyway, **besides all that**<sup>154</sup>, I've also heard that people in Kunming have **a relatively high income** but the **housing** price there is very **affordable**. So **all in all**, I think it's basically a **perfect** place to live for a **long** time.

**33. 准备过的开心活动**

During the **New Year's** holiday, I **took my parents on a road trip**. I planned the **whole** thing, so it was one of the most **fun** things I've prepared lately.

There are **tons** of things to consider when planning a **trip**. First you need to choose your **destination**. I **did a lot of research**<sup>155</sup> and finally chose **Kunming**, the capital of **Yunnan** Province. I really like the **climate** there. I think a **sunny** day with a **mild temperature** around **twenty** Celsius is always the best. As far as I know, Kunming has good weather like this **all year round**. So I decided to take my parents to **check it out**.

After that, I also asked a **friend** who is from Kunming to **recommend** several **must-see places** to me. One activity she suggested is watching **seagulls** at the famous **Green Lake** there. It was **amazing**. Even though it was **January**, we saw **tons** of **mallards** and **seagulls** passing by on the water. Sometimes they just swam around **at a leisurely pace** for a while then **flew away** together. It was **breathtaking** seeing **so many** birds taking off from the water. You know, it's **impossible** to see such a fantastic view in the **north**.

Anyway, **besides** that, I also **made a detailed plan**<sup>156</sup> for the accommodation, food and **itinerary**<sup>157</sup> for the **3-day** holiday. It took me about **2 weeks** to make the whole plan. But **it was totally worth it**. My parents were very **satisfied** with my arrangement. **Thanks** to the plan, we had a **relaxing** and **enjoyable** family trip.

### Describe a place in a countryside that you visited

You should say:

Where it is;

When you visited this place;

What you did there;

And how you feel about this place.

#### 34. 乡村一隅

I went to a **village** with my parents during the **New Year's** holiday. It's a **popular tourist attraction** near my hometown. By the way, I found **there is a trend in recent years that**<sup>158</sup> people prefer to travel to the **countryside** rather than big **cities**, which leads many small villages with **beautiful** scenery to become **new tourist destinations**.

Anyway, the village I went to has a **lake** as big as four or five **football** fields, which is **a total gem to find in nature**<sup>159</sup>. **Lots** of people, including me, go to the village to **chill out** and have **fun** at the lake. Even though it was in **January**, I saw **tons** of **mallards** and **seagulls** passing by on the water. Sometimes they just swam around **at a leisurely pace** for a while then **flew away** together. It was **breathtaking** seeing **so many** birds taking off from the water. So this is one of the most **unique** places I've ever visited. I've **never** had such a **relaxing** experience in **cities**. When I was there, I could **forget** the **hustle and bustle** of study/work, which made my mind **feel at ease**.

## Describe a quiet place

You should say:

Where it is;

How you knew it;

What you do there;

And explain how you feel about the place.

### 35. 安静的地方

Well, **when it comes to** a **quiet** place I like, the first one that I can think of is a **park** in my hometown. It's about **a 15-minute walk from** my home. My first visit to the park was about **two** years ago when the **gigantic** park had just opened to the public. My **mom** likes walking. So, in order to **check out the new place**, I **worked out** with her at the new park. And it's been my **favorite hangout** since my first visit.

It's a **huge** park that includes **a giant artificial lake**, as well as a pretty long **pavilion<sup>160</sup>** above the lake. You can **sit** in the pavilion while enjoying **tons of mallards** and **seagulls** passing by on the water. Other than **the occasional bird call<sup>161</sup>**, you **can't** hear any other noise.

Plus, there are so many **people** hanging out in the park **on a daily basis**, but it's **rare** to hear any **shouting** or other **loud** sounds, like music from **square dancing**. Most people there just have fun by practicing **calligraphy** or doing some **tai-chi**. **Everyone** is focused on their **own** thing. I **really** like this kind of atmosphere because it easily **calms me down**. You just **forget** the **hustle and bustle** of study/work, and **enjoy** the peace and quiet of nature. It really **set my mind at ease**.

So I think it's the **quietest** place I know, and it's also where I often go for a **morning** workout and a **night** walk. I **really** like being there.

**Describe a special day that you went out but didn't spend much money**

You should say:

What day it was;

Where you went;

What you did;

And explain how you felt about it.

**36. 外出花费甚少的一天**

Speaking of a day I **didn't** spend much money, the **first** one I can think of is the day when I visited a **village**. It's a **popular** **tourist attraction** near my hometown.

Since it's a **village**, there aren't many **recreational facilities**<sup>162</sup>. But the village has a **lake** as big as four or five **football** fields, which is **a total gem to find in nature**. **Lots** of people, including me, go to the village to **chill out** and have **fun** at the lake. Even though it was **January**, I saw **tons** of **mallards** and **seagulls** passing by on the water. It was **breathtaking** seeing **so many** birds taking off from the water. There were **plenty** of tourists **watching** the birds around the lake, but there weren't any **stalls**<sup>163</sup> selling snacks or drinks, which is pretty **unusual** for an attraction.

Besides, I got to see a **rowing race** there. That was the **first** time I saw this kind of match. And I didn't need to pay **anything** for it either. Once it began, **dozens** of boats moved on the water **with** **drum beats and loud encouragement**. And **every** boat was moving fast like a **fish** in water. It was so **exciting**.

So I experienced a **lot** of **new** things that day **at basically no cost**<sup>164</sup>. The **only** cost was **lunch**, which was less than **100** yuan. It was literally the **first** time ever that I spent so little at a tourist attraction. I think it's **mainly** because it's a **traditional village**, so **it hasn't been commercialized yet**<sup>165</sup>. Honestly, I really **like** the way it is.

### Describe an important river/lake in your country

You should say:

Where it is located;

How big/long it is;

What it looks like;

And explain why it is important.

### 37. 重要河流/湖泊

I'd like to talk about an important **lake** in downtown **Kunming** called **Green Lake**. It's **not** the **largest** lake in the province. But it's still **vital** to my hometown.

There are **tons** of **migrant birds**<sup>166</sup> that stay at the lake during the **winter**. Even in **January**, you can see **tons** of **mallards** and **seagulls** passing by on the water. Sometimes they just swim around **at a leisurely pace** for a while, then they **fly away** together. It's **breathtaking** seeing **so many** birds taking off from the water. You know, it's **impossible** to see such a fantastic view in the **north**. So there are a **lot** of tourists who would love to **check it out** during their **stay** in my hometown.

Besides, Green Lake **enriches** the locals' lives<sup>167</sup> because we have **many** **recreational activities** held on or nearby it. For example, there is an **annual rowing race** that takes place on the lake. And there's a big **park** around the lake where **many** people love to hang out. Some like practicing **calligraphy** and others like doing some **tai-chi**. **Everyone** is focused on their **own** thing. Once you are **there**, you just **forget** the **hustle and bustle** of study/work, and **enjoy** the peace and quiet of nature. It really **sets your mind at ease**.

Honestly, if we **didn't** have the lake, we would lose an important **recreational** place for the public in the **downtown** area. It'd also be a **disaster** for the migrant birds. So the Green Lake is really one of nature's **best gifts** to us.

You should say:

How does it help you;

And explain why you think it is helpful

**38. 帮助提高专注力的东西**

I'd like to talk about a smartphone app called **Offtime**. I use it whenever I need to **focus** on study/work.

Honestly, I'm very **easily** distracted by my **cellphone** when I need to study/work. Especially when I'm **reading something challenging**<sup>168</sup>, I always **have an urge to**<sup>169</sup> **scroll through social media**<sup>170</sup>, read news or even play cellphone **games**. It's so **hard** for me to concentrate when I **have a cellphone around**.

One time I saw a **post** on Weibo that **highly recommended** people who are bothered by cellphone distraction to use an **app** called Offtime. It says it helps people be more **productive** with study/work. I **downloaded** it and used it right away. It turned out that **it works like a charm**<sup>171</sup>. Once you turn it **on**, it **locks** your cellphone so **there's no way to use other apps**. If you want to **deactivate the app in advance**<sup>172</sup>, you have to **press the button for 15 minutes straight**<sup>173</sup>. So it literally **turns my cellphone into a brick**<sup>174</sup> for 3 hours. There were a few times I wanted to **unlock** it, but I couldn't **keep** pressing the button **that long**. I ended up sitting in front of my desk and doing a **lot** of work.

Anyway, **thanks** to this app, I **don't** get distracted by my cellphone anymore. I've become more **disciplined** when I study/work. I've also recommended it to my **friends** and they think it's an **awesome** app as well. I'm glad I could find such a **great** tool to help me focus.

### Describe a way/change that helps you save a lot of time

You should say:

What it is;

How you implement it;

How it helps you save time;

And explain how you feel about the way (about your change)

### 39. 节约时间的方法

I'd like to talk about a smartphone app called **Offtime**, which I **downloaded** several months ago. It helps you **reduce the time you waste on cellphone entertainment**. So I think it's **done a great job of<sup>175</sup> saving** me time.

Before I used this app, I was very **easily** distracted by my **cellphone**. Every time I wanted to do something **important**, I always **had the urge to scroll through social media**, read news or even play cellphone **games**. Tons of time that I was supposed to use on study/work was **wasted** when I **had a cellphone around**.

One time I saw a **post** on Weibo that **highly recommended** people who are **bad** at time management to use an **app** called Offtime. I **downloaded** it and used it right away. It turned out that **it works like a charm**. Once you turn it **on**, it **locks** your cellphone so **there's no way to use other apps**. If you want to **deactivate the app in advance**, you have to **press the button for 15 minutes straight**. So when you want to focus on something and are worried about **wasting** time on your cellphone, you can just **turn on** this app.

**Thanks** to this app, I **don't** get distracted by my cellphone anymore and have **stopped** wasting time. I've become **way more** productive than before, which makes me feel that I have a lot of **more** time to do things that I like. I'm glad I could find such a **great** tool to help me **save** time.

#### 40. 印象深刻的一节课

I'd like to talk about a class I had in **primary** school. When I was in grade **five**, I **transferred to a new primary school** because my family **relocated** to another city. So the **first** class as a transfer student<sup>176</sup> really **left a mark on me**.

I **remember it like it was yesterday**. It was an **art** class taught by our class teacher, Ms. **Zhang**. She welcomed me to the **whole** class warmly. **It also happened to be close to** the **Dragon Boat Festival**, which is an **important** public holiday in our country. Traditionally, it's for **expelling evil spirits**<sup>177</sup> as well as a **memorial day**<sup>178</sup> for a great poet, **Qu Yuan**, from our history. So Ms. Zhang **organized a sachet-making event**<sup>179</sup>. She brought **needles, threads** and various shapes of **cloth** to the class. Since it was my **first time doing needle work**<sup>180</sup>, it looked pretty **ugly**. But **what I didn't expect is that** Ms. Zhang **showed** my craft to the class and **complimented** me for making a good artwork.

Actually, the sachet I made **wasn't** good. I know that Ms. Zhang was just **helping me build a good relationship with** my classmates. So I **appreciated** her a lot. She gave me a **lot** of encouragement to **cheer me up**. Thanks to **her**, I started to **fit in with the class from then on**<sup>181</sup>, which is also why I **remember** this class so well. Honestly, I was so **fortunate** to have such a **good** teacher when I was a kid.

**41. 庆祝过的活动**

I'd like to talk about the time I made a **fragrance sachet**<sup>182</sup> at school to celebrate the **dragon boat festival**, which is an **important** public holiday in our country. Traditionally, this festival is for **expelling evil spirits** as well as **a memorial day** for a great poet, **Qu Yuan**, from our history.

In the past, **all** Chinese families made fragrance sachets to **eliminate bad luck and bring good fortune**<sup>183</sup>. So our school organized a **sachet-making** event to **ease our stress**<sup>184</sup> during the **pandemic**<sup>185</sup>. The teachers brought **needles, threads** and various shapes of **cloth** to the class. They even prepared **herbs for traditional Chinese medicine** because people always believe the **scent** of the medicine can **help keep away illness**.

Anyway, with our teachers' **demonstration**, we all made our **own** fragrance sachets. Since it was my **first** time **doing needle work**, I found it **hard** to **stitch the cloths together**<sup>186</sup>. The **first** one I made looked pretty **ugly**. But after I **got the hang of it**<sup>187</sup>, I made **four** more.

Later we **distributed** all these little bags to other teachers and students as Dragon Boat Festival **gifts**. That was the **first** time I celebrated this festival in such a **meaningful** way. Honestly, **traditions** of the dragon boat festival have been going on in **our** country for more than **2,000** years. But nowadays there're **very few** people that would spend so much time on **sewing**<sup>188</sup> a fragrance sachet by **hand**. So, I think it's **necessary** to organize these kinds of activities to let people know more about our **culture**.

#### 42. 传统产品

The **traditional** product I'd like to talk about is **an embroidery craft**<sup>189</sup>, **fragrance sachet**, which came from China's **Qin Dynasty**<sup>190</sup>.

These little bags were a kind of **perfume-like accessory**<sup>191</sup> thousands of years ago. They're also a **signature folk art craft**<sup>192</sup> that Chinese people love to **buy** or even **make** for the **Dragon Boat Festival**, which is an **important** public holiday in our country. Traditionally, the festival is for **expelling evil spirits** as well as a **memorial day** for a great poet, **Qu Yuan**, from our history.

In the past, **all** Chinese families made those bags to **eliminate bad luck and bring good fortune**. Of course, now most people just **buy** them from a shop to save **time**. Anyway, sachets usually contain **herbs for traditional Chinese medicine** because people always believe the **scent** of the medicine can **help keep away illness**.

Actually during the **last** Dragon boat festival, our **school** organized a **sachet-making** event to **ease our stress** during the **pandemic**. Since it was my **first time** **doing needle work**, it looked pretty **ugly**. But the experience **gave me more insights into**<sup>193</sup> the handicraft. In fact, **traditions** of the dragon boat festival have been going on in our country for more than **2,000** years. But nowadays there're **very few** people that would spend so much time on **sewing** a fragrance sachet by **hand**. So, I think it's **necessary** to organize these activities like sachet-making to let people know more about **fragrance sachets**, because it's part of our **culture** and should be **preserved**.

#### 43. 帮助小孩

I helped my neighbor's **daughter** **a short while ago**<sup>194</sup>. The little girl is a grade **four** student in **elementary** school. Once she had a homework **assignment** to make a **fragrance sachet** by hand. This was really **tricky**<sup>195</sup> for her. Since her parents were **busy** at work, she asked **me** for help.

So even **I** didn't know how to make it. The little girl was **stressed out** because **the deadline of the submission**<sup>196</sup> was the **next** day. So I had to search for a **tutorial**<sup>197</sup> with my phone so we could **teach ourselves**. Luckily I found a **simple** one and started teaching her how to stitch the little bag **step by step** while watching the video.

Since it was her **first time** **doing needle work**, it was **hard** for her to **stitch the cloths together**. So I spent a **lot** of time explaining this part. Eventually, it took us a **whole** day to finish the assignment. Honestly, I **don't** think it's **easy** to tutor kids these days. I **don't** know much about what they learn. **Without** the help of my phone that day, I'm afraid the little girl **would have looked down on me**<sup>198</sup>, which **would've been very embarrassing**<sup>199</sup>.

**44. 用手机做重要的事**

I'd like to talk about the time I used my mobile phone to search for **help** when I **ran into a problem**<sup>200</sup> **a short while ago**. That **would've been very embarrassing**. So my cellphone really **did me a big favor**<sup>201</sup>. Actually, nowadays whenever I encounter something **difficult**, the **first** thing I do is use my cellphone to **google** it. I think this is the most **important** function of smartphones.

I'm going to talk about a **sweater** that I got from my friend. **If memory serves correctly**, I got this sweater **a couple years ago**. My friend wanted to do something **creative** for my **birthday**. So she decided to buy a sweater and **embroider**<sup>202</sup> my favourite animal, a tiger, onto it. It's special to me because I was born in the **Year of the Tiger in the Chinese Zodiac**<sup>203</sup>.

I remember that my friend kept the gift a **secret** for the weeks **leading up to my birthday**<sup>204</sup>. I knew she **was really talented at embroidery**<sup>205</sup>, so I always asked to see **what** project she was working on. But since it was a **gift** for me, she **didn't want to give the surprise away**<sup>206</sup>. She just told me that she had been too **busy** to do any embroidery. But at my birthday **party**, she gave me the sweater and I was **totally blown away**. The sweater is **black**, so the orange and white thread **really stands out**<sup>207</sup>. She also used the **black** fabric to show the **eyes** and some of the **stripes**. I was amazed by how **creative** it was.

Even though **it's just stitched on**<sup>208</sup>, the embroidered tiger looks so **lifelike**<sup>209</sup>. I honestly **couldn't** believe my eyes when I first saw it. I was really **touched** by her thoughtful gift. It's honestly one of my **most prized possessions**<sup>210</sup>. I really **love** this sweater. **I hope that I never outgrow it**<sup>211</sup>.

I'd like to talk about the story of how my **friend** secretly prepared my **birthday present** **behind my back**<sup>212</sup>. It happened when I was a **freshman** in college.

I remember that my friend kept the gift a **secret** for the weeks **leading up to my birthday**. I saw her a few times with something for **embroidery**, so I always asked to see **what** project she was working on. Even though **it's just stitched on**, the embroidered tiger looks so **lifelike**. I honestly **couldn't believe my eyes** when I saw it.

My friend said she had been **preparing** this gift for almost **a month**, and **kept it a secret from me** so she could give me a big surprise. I was really **touched** by her thoughtful gift. It was the **first** time that someone planned a **surprise** for my birthday, so this gift really **left a mark on me**<sup>213</sup>. And I'm so **lucky** to have such a **nice** friend.

**Describe a long walk you had.**

**47. 远距离步行**

If memory serves correctly, the only time I had a **long** walk was about **two** years ago when a **gigantic**<sup>214</sup> park had just opened to the public. My **mom** likes walking. So, in order to **check out the new place**, I **worked out** with her at the new park.

We had a walk on a **Saturday morning**. It was an **amazing** feeling at the very **beginning**. I saw **so many** people hanging out in the park. Some were practicing **calligraphy**<sup>215</sup> and others were doing some **tai-chi**. **Everyone** was focused on their **own** thing. I **really** liked this kind of atmosphere because it **easily** **calmed me down**. You just **forget** the **hustle and bustle**<sup>216</sup> of study/work, and **enjoy** the peace and quiet of the **morning** surrounded by nature. It made my mind **feel at ease**.

But after **an hour**, I began to get **annoyed** because the park is so **big** that we kept **walking** around **an artificial lake** but couldn't find the **exit**. We had to take a **break** and we ended up taking over **two** hours to walk out of the park.

I **didn't** plan to walk for **that** long. **My legs were killing me**<sup>217</sup> the next day. My mom **made fun of me**<sup>218</sup> for being so **weak** physically but she was **right**. I often work at **night** and sleep **too** late, so it's **hard** for me to do exercises in the **morning**. But now I'm trying my **best** to **change up my routine**. After all, **health is the most precious asset**<sup>219</sup>.

I used to be a **night owl**<sup>220</sup> and **didn't** work out very often. But now I have **changed** my daily routine and have been getting up **early** to go jogging.

It was my **mother** who **talked me into**<sup>221</sup> making this change. About **half** a year ago, a **gigantic** park had just opened to the public near my home. My **mom** likes jogging. **50. 小时候喜欢的玩具**

The toy I'd like to talk about is **a Rubik's cube**. When I was in grade **4** or grade **5** in **primary** school, I went to a **night market** with my parents and we saw an **old gentleman** selling Rubik's Cubes. Since I'd **never** played with a Rubik's Cube before, I bought a **regular** one to solve it for **fun**.

I remember that the old man even **showed** me how to solve it. His hands were **quick** and he solved the cube in **two** or **three** minutes. He **really** **blew my mind**. So I started to think about how to **solve** the Rubik's cube from the **moment** I got it. Honestly, it was **too** hard for a **ten-year** old child. But I **was** **obsessed with** it and kept **trying** to solve it by myself. I found it really puts your **memory** and **spatial imagination** to the test. You have to **remember** **where each color goes**. Plus, you have to **constantly** imagine **different** spatial patterns in your head to help you figure out what to do **next**...

I **can't** recall how long it took me to solve it for the **first** time, probably **two months**. But I was **over the moon** when I succeeded. I had a **great** sense of achievement. Since then, I often **shuffle the cube and reset it**. Even now, I **still** play with it **from time to time**. My best record is **5 minutes**. I'm **way** slower than **professional** Rubik's cube players, but it's **good** enough for an **amateur** like me. I think **it's the toy I've played the longest with**<sup>226</sup>.
