新增小题 Topic 3 Major

1 Is your major difficult? (高频)

Version A: Yes, I think my major is difficult. I'm majoring in history. A lot of people think I just memorize facts¹. But it's actually more complicated. You have to show how history is still relevant.

Version B: Yeah, my major is difficult. I'm majoring in biology. Some people think that biology is just about doing experiments. But you have to understand a lot of complicated processes. It's also hard to apply to real life². ツ雅過過過寸丹甸宝店舖~原创
