主动逆推口语 p3 题目（自己琢磨）创造带问号的题目

范例答案：（20 遍及以上）

what jobs or careers might disappear or become obsolete in the future?

will autonomous vehicles be the majority of vehicles on the road?

will there be any effects of disappearing jobs on our society?

what will be some changes in tourism in the future?

are there any differences between young people and old people in terms of how they pay for things?

should we keep embracing technological development?

回答范例:

what will be some changes in tourism in the future?

well, i believe there will be a lot of changes in this field

because we've living in a time of great change and nothing will be the same in the future.

for instance, travel agencies and agents might disappear or become obsolete.

and the reason for this that there are so many sites and apps

that can help us cobble/put together our whole vacations

we can find hotel rooms, plane tickets at the best rates

on our own so it means that we don't have to rely on travel agencies or agents anymore.
