

直播 Day 6 (结课日)

今日摘要:

Part2 事物题和地点题。

Describe an occasion that you lost something (丢东西的经历)

You should say:

What you lost

When and where you lost it

What you did to find it

And explain how you felt about it

知识点:

形容很丢三落四的人:

- **forgetful** 健忘的

My dad is such a forgetful person. He's always looking for his car keys.

- **unmindful** 不注意的; **mindful** 是注意的
- **absent-minded** 大脑不在场, 表示很心不在焉的

I'm sorry, I'm a little absent-minded today. What did you say?

- **distracted** 被分散注意力的

I'm always distracted, and that's why I keep losing things.

Why are you so distracted today? What has got into you?你吃错药了?

I don't know what's got into me today; I'm so distracted.

- **Disorganized** 没有组织条理性的, 乱七八糟的
- **scatterbrain** 名词·表示头脑乱七八糟的人

I'm such a scatterbrain. I always leave my bag behind.

- **always loses things** 总是丢东西: **She always loses her things.**
- **forget things easily** 总是忘东西

I'm the kind of person who forgets things easily.

- **messy** 乱糟糟的

**I'm such a messy person.
My life is a mess.**

开头可以总结一下自己，引出故事，顺便展示一下词汇量。可以强调自己健忘或者不怎么健忘。

Normally I'm not a scatterbrain. I don't lose things easily. I'm always double checking my stuff before I leave a place, super mindful. That's why I remember this experience so well, that was one of the only few times that I lost my stuff.

或者

Oh my (感叹语, 艾玛呀), I don't know where to start (我都不知道从何讲起) as I have so many stories in my mind. Unfortunately, I'm a very distracted person in general. My friends all call me a scatterbrain (管我叫大马虎). I'm the kind of person who will look for their keys when the keys are in their hand (我是那种手里拿着钥匙还在找钥匙的人)! That's how absent-minded I am. My life is a mess. I'm always looking for my things. Recently, I lost something again!

It was my dear iPad (我最亲爱的 iPad) . Last month, I took the train to another city to visit a friend. And in order to kill the time(为了更好地消磨时光) on my way, I brought my iPad with me. At the beginning, I was watching a movie. And then, later, I started playing some games on my iPad, I believe it was Candy Crush (消消乐), the most classic game, yes...and then, I started to feel very sleepy. It was a long trip, and that's why I decided to take a nap.

I felt lazy (犯懒) to put the iPad back into my suitcase, as I knew later I would use it again after the nap. So I put the iPad in the pocket in front of me. You know, there's always a thin pocket in the seatback in front of you (你前面座位的后方的薄薄的小口袋)? So, yeh, I put it there. The pocket was not big, so I could still see the tip of my tablet (平板电脑的上方一角). I thought that would remind me that there was my tablet in the pocket. But NOOOOO, I completely forgot my iPad after the nap. Like it was never there. I just removed the memory out of my brain.

After I got off the train, several hours passed by, and suddenly I jumped out of my skin. "Where is my iPad?!" And that was when I remembered it was still on the train!!!! I called the lost and found office (失物招领办公室) at the train station, told them about my tragedy (悲剧). The customer service representative (客服代表) comforted me (安抚了我), and helped me call the head of the train (火车的车长) / the conductor of the train (一个意思, 车长), anyway, he said he would search it for me.

Several days later, I got a phone call from him and was told that he found the iPad! I felt so lucky and grateful to get my baby back. And at the same time, I felt very guilty for being so unmindful. I hate troubling people (我讨厌麻烦别人).

So, yeh, that was the story.

Describe a special day out that cost you little money/no money (花钱甚少的活动)

You should say:

When it was

Where you went

How much you spent

And explain how you felt about the day

因为想要省钱，而克制自己没花钱。

One day, I remember I went to a local handmade market (手工集市) with my friend, and I didn't buy anything. I was so proud of myself on that day.

In terms of when it was, well, to be honest, I don't remember the date. But I remember it was two years ago, on a Sunday morning, we decided to pay a visit to the local handmade market.

One thing you should know about me is that (你要知道关于我的一件事儿就是), I love handmade things, and I love spending money, hahahah! But two years ago, I decided to become a better saver (一个更好的存钱小达人). Before I made up my mind to make the change, I was a big spender. I was extravagant (非常奢侈的). I was spending money left and right (接二连三地花钱), swiping my card like there was no tomorrow (没完没了刷卡). Finally, one day, I realized that I should start planning for my future. I needed to become more money conscious/frugal. (背景故事)

And then, fast forward to (快进到) the day when we were at the market (跳过中间的七七八八快进到去市场的那一天). There

was SO much cute handmade stuff at the market. I was suffering a lot (很痛苦) . My friend bought loads of goodies (一堆好东西) . Like, a clay mug (粗陶的杯子) , a little figurine (小塑像) for her living room, a painting, a handmade bag, some handmade soaps (手工肥皂) , and so on and so forth (诸如此类) , a lot of things.

I felt very jealous at the beginning. (一看到 *beginning* 这个词, 你就该想到, 课上讲的“时间分层”来了!) I wanted to stick to my plan (遵守计划) , and be strong-minded (主意很正, 很坚定) about it. But I was very attracted to many things at the market. It was extremely hard for me to NOT throw my money there. But then, I started to see it from a different angle. I had everything at home. I didn't need a new handmade bag, I didn't need any new soaps, I didn't need a new mug. Why would I waste my money just because they were cute? I had my goal, and I should proudly follow my plan and achieve my goal. Once I changed my way of thinking (思维方式) /mentality, it was like a breath of fresh air (一股新鲜空气) . I felt happy and free. It was almost like playing a game with myself: how little money could I spend?! And the final answer was: 0! I didn't spend ANY money.

I left the market with a full pocket. I was impressed by the new me, a penny pincher (一个崭新的我: 铁公鸡) . Haha!

That's the story. Thank you!

【事物题】 答题要点:

四小问是最简单的答题结构，越是没可说的时候越是要充分利用题卡。

人物题、事物题和地点题最适合四转大法，容易出现无话可说的现象。

高频小问：

① What it is/was

展开思路：开门见山回答；可以解释原因（为什么你选择这个事物来介绍）；也可以介绍该事物在社会上的普及度（比如水上运动、极限运动.....大群体的接受度，也是你想要尝试的原因）

② when/where you do/did it.....

展开思路：WH法、分情况讨论、分群体讨论、阐述原因，等，都适用。

③ 最后一问：思维分层，总结+升华

【事物题】：

Describe a traditional product in your country（传统产品）

You should say:

What it is

When you tried this product for the first time

What it is made of

And explain how you feel about it

可以讲 **tea sets 茶具, ceramics 陶瓷, Chinese fans 中国扇, handicrafts 手工艺品, silk 丝绸, 甚至 jade 玉器**。食物可不可以说? 有点擦边。如果是那种在商店里买的月饼、甜点, 还算过关, 但是饺子面条这种家常菜, 就显得有点不属于 **product** 的范畴了, 更属于 **food、cuisine** 的范畴。因此, 建议尽量不要打擦边球。

Today, I'd like to talk about Chinese tea sets.

I don't remember when I saw a tea set for the first time. I just remember that my grandparents used to own several tea sets at home when I was little, and my mom had one, and also, I saw them at my friends' homes all the time. The tea set is such a common thing to see in China. Because, drinking tea is a big thing in China. Tea is not just a kind of drink/ beverage in my country, it's a kind of culture, a lifestyle. In China, when someone comes for a visit, offering tea is a way of showing the host's warm welcome and hospitality to the guest (阐述原因) .

And in terms of what tea sets are made of, normally they're made of either ceramics or clay. Usually, a tea set consists of a tray (托盘), a teapot (茶壶), and a bunch of tea cups (几个茶杯) . Oh yeh!!! There's also a little clay figurine (小泥巴塑像) , called tea pet (茶宠) in the tea set, which I think is SO CUTE. It's just something cute to look at and also people believe it brings good luck. Like, the most popular tea pet is an imaginary creature in China called Piqui, that looks like a mix between a dragon and a lion (看起来像是龙和狮子的混合物) . And it's a symbol of wealth. So, when people drink tea, they will pour the leftover tea over the tea pet (把剩茶浇到茶宠上) , it's like nourishing the pet (滋养小宠物) , and giving it a soul (赋

予它灵魂) . And years after years (年复一年) , you will be able to smell the tea fragrance from the pet (你能闻到茶香) . It's just lovely, isn't?

Finally, to answer the question of how I feel about this product, well, I'm not a tea artist (品茶大师) , I prepare my tea on a very casual level (很随意的水平) . I normally just brew/make my tea in a big mug (大水杯子) . But having a tea set at home is a very common thing. They're very beautiful to look at, and they're are the best tools for enhancing the taste and the fragrance of tea. So, I think it's a good investment for the home (是值得买的家居小投资) .

其他传统产品:

1. Chinese fans 中国扇:

- hand fan/holding fan 手上拿的扇
- folding fan 折扇 (foldable)
- Chinese fans are exquisite and also practical! 美丽又实用
- If you travel to China during the summer time, you can see people in the street moving their arms and fanning away the striking heat (摇动着胳膊, 把炎热扇走! fan 有动词词性) . They are beating the heat with their fans!

- Chinese fans have been noted for (被熟知) /famous for their exquisite workmanship (手艺) .
- Chinese hand fans are normally made of feathers, or silk, or paper. They're very light and easy to carry around.
- They don't occupy any space as they're foldable, perfectly fit in your pockets, bags or anywhere.
- Traditional fans were mainly made of feathers, so they are also called feather fans (羽毛扇) . They were mainly popular among the rich and nobility (有钱人和贵族) .
- When I was little, I remember that everyone had a hand fan in the summer time. When I took a nap, or went to bed at night, my mom would lie down with me together, and she would be moving her arm and fan away the heat for me, so that I could sleep better. So, even now, whenever I see a hand fan, somehow that still reminds me of my mom. It's just a very fond memory of my childhood.

2. Chinese Jade 玉

- In China, jade is not just a type of stone, it is also the symbol of kindness, wisdom, justice, beauty, durability and wealth (善良、智慧、公正、美丽、持久和财富的象征) .
- For some people, they love wearing jade because they believe that jade possesses healing powers (具有修复能量的作用) .
- Jade comes in three colours (有三种颜色) , green, white and purple. And green jade is the most popular type, also the best type.
- Jade is valued not only as a beautiful piece of jewelry, but also as an essential symbol of local culture.

- Jade necklaces, bracelets, earrings are all well-liked among Chinese women.
- I personally love jade accessories. I have several jade necklaces. One in white, one in purple, and two in green. I especially love wearing them in the summer time. Because they are gemstones, it feels very cool on the skin, which is really nice.
- My parents bought me those jade necklaces. Each time when I put them on, I will remember when they gave me the gift, and feel loved and appreciated. So, yeh, they definitely hold a lot of sentimental value.

3. Qipao 旗袍

- Qipao is a traditional close-fitting garment (修身的服饰) /dress that originated in 1920s (起源于.....) in Shanghai.
- A qipao is normally made from embroidered silk (刺绣绸缎), featuring (以.....为特色) a high collar (高领) and delicate buttons (精致的纽扣) on the front.

(embroidered 刺绣的, 这个词很高阶, 记住最好, 记不住就说 silk)

- A Qipao can perfectly accentuate/highlight a woman's curves (强化女性的曲线美) . It's a celebration of beauty and freedom (是对于美和自由的庆祝) .

- It quickly became a fashion trend (时尚潮流) that was adopted by movie stars and young women in China. The history of Qipao reflects the rise of the modern Chinese women in the 20th century (旗袍的历史反映了中国女性在上世纪的地位上升) .
- Young intellectual women fought against (对抗) traditional customs (传统习俗) , such as foot binding (裹小脚) , by showing off their bodies and curves (炫耀自己的身材和曲线) .
- At that time, traditional gender roles were being questioned and challenged (传统的性别角色职责被收到了质疑和挑战) , and women wanted to go to school, have careers, drive cars, have more voices (有更多的声音) , things like that.

Describe an important river/lake in your country (你们国家的重要河流、湖泊)

You should say:

Where it is located

How big/long it is

What it looks like

And explain why it is important

可以讲自己去过的著名的河流湖泊，也可以讲自己家乡的小河，不一定要真的对整个国家特别重要，可以说对自己家乡特别重要。而且小河汇入大

河，肯定也是有自己的重要性的。

Ok, so, I'm guessing that (我猜) a lot of students probably will talk about Yangtze River, which is the longest river in China, even in Asia. But, today, I really want to talk about a small river in my hometown, called XXXX. It is a very important river to the lifeblood of my city, and it's my favorite river.

In terms of how important it is to the whole country, well, not so much (不是那么重要了) nowadays, but it used to be a vital waterway (重要的水运道路) in the whole region, in the sense of transporting food and goods between different cities. And plus, it joins into (汇入) a bigger river at some point, and that bigger river eventually flows into Yangtze River, so I guess, XXX still is doing its job, making some contribution to the country, haha!

Join into/flow into
run through

And, moving on to where this river is and how long it is, well, XXX is located in my city, in the southeast of China. I can't really wrap my head around how long it is (我怎么抓耳挠腮都搞不清楚这条河有多长) . I just know that it runs through the entire city.

And to answer the question of how it looks like, well, it looks like a normal river, ahahaha. Kidding! It's a very beautiful and winding river (弯弯曲曲的河) , with crystal clear water. People in my city just love to take a stroll along the river, and watch the sunset. I love seeing the sun bouncing off the water, and leaving splendid sun glitter on the surface of the river. It's

just breathtakingly beautiful, stunning. Some people go fishing by the river, some kids throw rocks and skip rocks on the river, people love spending time and chilling near the water. These days, XXX is definitely for recreation (有娱乐意义的) .

It plays an important role in my city. Everyone loves the river.

Thank you!

***选题的重要性:**

原则: 标新立异?

有的说。能说什么、会说什么,就说什么。(贴近生活,贴近当代)

武汉黄鹤楼 VS 我们学校图书馆

明星名人 VS 身边人

空调(单一功能) VS 手机/网络(多功能,便于分层)

Describe an invention that has changed the world in a positive way (改善世界的发明)

You should say:

What it is

What benefits it has brought

How it influences people of different ages

And explain how it changed people's lives

There're so many amazing and life-changing (改变生活的) inventions in the world throughout the human history (整个人类历史中) . And the one I want to talk about today is: the internet.

It was invented in the 90s, in the 20th century. And ever since then, it has been bringing accumulated knowledge (累积的大量知识) and information to our fingertips (指尖) . And it also has changed the way we live dramatically.

Talking about how it influences people of different ages, well, no matter what age you are, everybody loves and needs the internet. Some people, especially the young use it for educational purposes. Easy internet access means easy access to knowledge and information. "World Wide Web" allows education to take place anywhere and anytime. Students don't have to go to physical classes (实体班级) anymore, they can just turn on the computer, get online and learn like a sponge! There're all kinds of online courses and free online information accessible. The cost of education has definitely been cut down thanks to the internet.

And then, some people use the internet for shopping. E-commerce is a big deal nowadays (电子商务是件大事儿) . Back in the old days (曾经的岁月里) , people used to spend a lot of time going to different shops and stores, checking products, and making decisions on what to buy. Shopping was a decision that was thought through. But now, there're endless sites (网

站) where you can get information and buy the latest brands online. You just need to browse and click (浏览和点击), and things will be delivered to your door! It's too easy. Therefore, impulsive shopping (冲动购物) is happening everywhere. (时间分层)

And what else, nowadays, no matter what age, people use the internet to connect with one another (连接彼此). The internet laid the foundation work for another revolutionary invention, which is social media (社交媒体). Social media indeed has changed our personal space, the way we interact with our loved ones (我们的爱人), our friends and family, and even with strangers online. We rely heavily on the internet to connect with people, communicate with each other, and network with new people. Face to face communication is still important, but sometimes it seems that people prefer to check in with each other (关心、询问彼此) online in this fast-paced modern time. It's less time and less effort. We're getting lazy on socializing with people.

还有很多其他的影响, 比如 *for entertainment, for work, for doing business...*

So, yeh, that's the invention I'd like to talk about today. Thank you!

Describe an item of clothing that someone gave you (别人给你的衣服)

You should say:

What the clothing was

Who gave it to you

When you got it

And explain why this person gave you this piece of clothing

衣服裤子裙子都可以。可以是妈妈给你做的衣服 (My mom made me a shirt)，也可以是你的另一半给你打的毛衣 (My girlfriend knitted me a sweater)，也可以是长辈把自己的昂贵的婚纱流传给你 (My grandma gave me her wedding dress)，意义非凡的衣服，甚至都可以是一个同学、朋友把自己衣服给你，因为你喜欢，因为你冷 (需要大衣)。

I want to share with you the time my best friend gave me a jacket of hers(/his 如果是男孩), and that nice gesture really touched the softest spot in my heart.

My best friend Lin is a very nice, kind, and generous person. She has a heart of gold. We get along really well, and she always inspires me with her kindness and generosity. Because of her, I learned to see the bright side of things, and stay positive.

Lin is also a very thoughtful friend. She pays a lot of attention to small things, very observant (good at noticing things). One time, I borrowed one jacket from her, and I really liked it. It was a yellow mustard jacket, very slim-fit and elegant. It really accentuated my body shape and flattered my curves. It was totally my style.

Lin saw how much I loved the jacket, and she decided to gift it to me. I was very surprised, because, A, I knew she loved the jacket as well; and B, that jacket was very expensive. So, I said to her, "You love the jacket. Why are you giving it to me?" And guess what she said? She said, "Yes, I do love it, but I love you more." Oh my, those words I can never forget. It gave me the creeps. My eyes were wet. I was very touched.

Lin taught me how to show appreciation and love to friends. She taught me that to give is actually to receive. She gave me her love, and then she received my love for her. Even today, I'm still loving and wearing that jacket. Each time when I put it on, I see Lin's face and her heartfelt smile (真心的微笑) .

So, I guess that's pretty much everything, thank you!

Describe an interesting discussion you had with your friend (和朋友进行的有趣的讨论)

You should say:

What the discussion was about

What opinions you and your friend had

Why you think the discussion was interesting

And how you felt about it

知识点:

-talk about/over: =discuss

-chew over: 做决定前, 认真地讨论+思考

-debate about: 就.....而辩论

-exchange ideas and thoughts: 交换观点和想法

-come to an agreement: 同意彼此

-share the same position: 想法一致

-on the same page: 同上

-吵架的表达:

- have a quarrel; have words; argue; have a fight; fall out; have a fallout;

-can't agree with each other; can't agree to disagree; fail to agree

-A and B don't see eye to eye: 不同意彼此 (看彼此不顺眼)

-give someone the silent treatment: 吵架后一方对另一方冷战

-A and B are not on speaking terms: 冷战

-give someone a cold shoulder: 对某人不友好

So, I remember not long ago, my roommate and I had an interesting debate about when is the best age to become a parent (什么年纪做父母最合适) .

My roommate held the opinion that the best age to become a parent is below 25. She believed that raising a child is physically challenging, that's why below 25 years old is the best age to become a parent. You can play with your child without feeling tired. You are capable of waking up multiple times at night and not having enough time to sleep. Your whole energy level is still high enough to support you to go through this tough time.

I, on the other hand, was of the opinion that actually the best age is after 30, like 33 years old. My roommate was very surprised about my answer, but I made my opinion very clear. For me, having a child is mentally draining (思想上使人透支的) . Babies are needy and demanding, 24/7. You don't have the chance to take a break. Your life will make a 180-degree change. You have to be mentally strong and independent in order to go through the hardship in life. And not to mention, bringing up/raising a child is also very financially challenging. You would suffer if you didn't have enough money. Therefore, when people are over 30, they are more or less mentally mature and financially independent. And they are not that old yet. So, it's the perfect age.

We exchanged our thoughts completely but couldn't come to an agreement. But eventually, we agreed to disagree. Even though we couldn't be on the same page, it was still a very interesting discussion. **Because before this debate**, I didn't know my roommate and I would hold such different opinions. We are the same age, and with very similar backgrounds, and yet we think completely different. And to be honest, **after that discussion**, I got inspired by some of her thoughts. That's the purpose of having discussions, to listen to other people, to see things from a different perspective.

So, that was the time when I had an interesting discussion with my roommate. Thank you!

地点题:

Describe a quiet place you like to go (安静的地方)

You should say:

Where it is

How you knew it

How often you go there

What you do there

And explain how you feel about the place

室内：图书馆、自习室、咖啡馆.....；户外：小花园，自家后院，山区

素材一：

So, whenever I feel stressed out (压力山大) and burned out (被烧光了热忱) from work/school, I'll get away to my secret retreat, called XXX, to find my inner peace again.

XXX is a mountainous area on the outskirts of my city. Fortunately, it's not a very popular destination (受欢迎的旅游目的地),

so you don't really see any tourists there 因为不火，所以看不到游客; sometimes during the week, you don't even see the locals.

That's why it's so peaceful and tranquil. It's a place where I can blow off the steam and unwind.

I go to that area every once in a while, whenever I feel like going and have enough time on my hands, about once per month. **Sometimes** I'll go hiking with my friends, we'll get into the woods, burn up our energy, and enjoy the feeling of being physically exhausted; **sometimes** I go there just by myself with a book, and I'll find a quiet spot, spending several hours there, reading and chilling; **Sometimes** I'll even take a nap under a tree, enjoying the breeze on my face and the

coolness from the shade.

I love that place. It's my little getaway in my city. A place that allows me to get rid of the hustle and bustle in life. It's a place where I can take some "me" time, and be me. Thank you!

素材二:

Ok, so, I'd like to talk about my all-time-favourite (一直最爱) café, called Miss Café.

I found this place several years ago, thanks to my friend Xiao Lin. She took me to this café, and she told me it was like her secret retreat (秘密的休息场所) where she could unwind and run away from her daily worries.

(室内装潢不一定要说) It's a very tasteful (有品位的) place. Everything and every corner is decorated beautifully. Red brick walls, concrete flooring (水泥铺地), rustic wooden tables (粗糙的原木桌子) and wooden chairs with metal legs (带金属腿的椅子). You know, typical industrial style (工业风). And plus, it looks so spotlessly clean (一尘不染) everywhere. It's definitely a plus-point (加分项) for a clean freak like me.

Miss Café is such a unique and cool place. There's always nice music, but it's never loud, it's the kind of chilling and instrumental background music (那种很悠闲的纯乐器背景音乐) that you can enjoy and clear your mind. There's a

turntable/vinyl record player (唱片机) with headphones at the corner, and next to it there's a whole wall full of music records (音乐唱片). You can buy records there, and also if you are interested in listening to some of the records, you can ask the server to play the record for you. They have a big collection (收藏量很大) there, from classical to pop, from jazz to blues, from Asian to Western. It's like a heaven for music buffs/lovers (音乐爱好者的天堂).

I love spending the whole afternoon in the café. **Sometimes** I'll be just myself, sitting next to a big floor-to-ceiling window (落地窗), sipping my coffee (抿着我的咖啡), savouring my pastry (品尝我的点心), and reading a book. I love seeing the sunlight pouring through the big window, touching every corner with a layer of golden colour. It feels so peaceful and cozy (温馨). **Sometimes** I'll share this moment with a friend, with a cup of coffee in hand, catching up with one another (叙旧, 互通有无), listening to the serene music, and watching the world go by (看人潮在眼前走过) in front of the window. It's the best way to while away the time (打发时光), on a lazy Sunday afternoon (慵懒的周日下午).

Miss Café is a hidden gem (宝藏), it's quiet and peaceful. And I know it sounds selfish, but I'd like to keep it that way (我知道这听起来很自私, 但是我想让她保持低调, 不为人知的状态). Thank you!

Describe a place in a village you visited (乡村一游)

You should say

Where it was

When you visited this place

What you did there

And how you felt about this place

知识点:

-farm house 农舍

-guest house 民宿

- hotel 酒店; inn 旅店; motel 汽车旅馆

- Bed and Breakfast (B&B) 提供早餐的家庭旅馆

- AirBnB

- animal farm 动物农场

- fruit farm/orchard 果园

- fish pond 鱼塘

So, last month, my family and I visited a farm house in a village close to my city.

This farm house was quite big. It offered accommodation, food, relaxation and entertainment to people. We didn't stay

over (过夜) even though it had a big guest house which could host at least 10 people. We just visited the place, and spent the whole day there.

In terms of what we did there, well, we did a lot of things. **First**, there was a fish pond where guests can fish by themselves and later eat the fish they catch at the restaurant. Many people, especially kids loved standing by the pond, holding a fish rod, and waiting for the fish to show up. So, we went fishing by the pond for a while. We caught a big fish and then we asked the cook/chef at the restaurant to make a fish soup for us. It was really tasty. **And then**, this farm house had a small swimming pool, a sauna room, a steam room and a spa room for people to relax. I went swimming first, and then took a sauna, and eventually I enjoyed a nice spa treatment. I had facial and body massages. They really helped me unwind and take my mind off things. **And finally**, the farm house also offered majiang, cards, and board games in the entertainment room. So, after the spa, my family and I spent several hours playing cards and boardgames. We laughed, joked around, we had a blast (玩儿得很开心) .

What else, oh yeh, the farm house had a small animal farm where people could get close to sheep, horses, ponies, donkeys and chickens; and they also had an orchard where people could pick some apples and peaches. We didn't go to those two farms because we didn't have enough time, but definitely one day we will come back and pick up where we left off (把没玩儿的给玩儿了) .

So, yeh, that's the place I visited.
