##### 【经典考题-流行服饰讨论】

Nowadays the trend of fashion changes very rapidly, and gradually people become the slaves of it. Some people think that a person should choose comfortable clothes he or she likes, regardless of fashion.

*Do you agree or disagree?*

## 写作提纲

中立观点，两者皆可，个人选择。

- 穿着时尚增加自信自尊
- 穿着时尚是融入流行文化，与时俱进的体现

The improvement of the living standard is believed to have caused higher demand for fashion, because people have much more money to afford it. However, **there is a fear that people will lose their own tastes, and never find what they really need.** My view is that to dress up fashion should be respected and it is also correct to choose the clothes people like.

Being fashionable is healthy and brings some benefits to us. This is because seeking for beauty and wanting to look good are part of human nature. When some people start to wear stylish[adj.时髦的] clothes like a superstar, they feel more confident and have good self-esteem[n.自尊], which is of course helpful and essential in some social and business occasions.

Moreover, fashion is one element of the popular culture. For example, South Korean modern clothes and TV drama have been popular in other Asian countries for some time, and **lately PSY's "Gangnam Style" has even swept the world and almost everyone imitates his horse-riding dance.** Being in fashion and following idols make people understand and involve in the popular culture and feel up-to-date in this fast-changing world.

This is not to say that everyone should be fashion-conscious[adj.时尚意识的, 时装意识的]. Certainly, it is a personal choice to put on the comfortable clothes people are interested in. And since fashion changes over time, **it would be better for people to pay more attention to something more meaningful in life, like pursuing knowledge, loving family and cherishing friendship.**

In sum, fashion should be respected, and at the same time people should have their own tastes of clothing style rather than blindly following the so-called "fashion". **Sometimes the plain clothes may mirror a person's inner peace.**

穿着时尚是健康有益的,并带给我们一些好处。这是因为追求美和想外表好看是人类天性的一部分。当一些人开始像明星一样穿着时髦的衣物时,他们感觉更加自信和拥有良好的自尊,这在一些

社交和商业场合当然是有帮助和必要的。

而且, 时装是流行文化的一个元素。例如, 韩国的现代服饰和韩剧在亚洲国家已经流行了一阵子, 最近鸟叔的江南 Style 又席卷全球, 大家都在模仿他的骑马舞。**[有共鸣的例子让读者印象深刻]** 穿着时尚和追随偶像让人们理解和融入流行文化, 并会感到在这个快速变化的世界中他们是与时俱进的。

这并不是说每个人都应该有意识的追求时装。当然, 穿自己喜欢的舒适衣服是个人的选择。而且因为时装随着时间改变, 人们更应该把更多的注意力放在生命中更有意义的事情上, 比如追求真知, 热爱家庭, 和珍惜友情。 **[思想升华]**

#### 写作提纲

观点: 不是科技而是社会财富分配不均导致的。

原因 1: 政府的责任。

原因 2: 科技其实还缩小贫富差距。举例: 利用网站创业。 **MODEL ANSWER**

The application of new technologies is one of the most important ways of making millionaires such as Bill Gates. However, **discussion now centers on whether** the technology has also widened the gap between the rich and the poor. My view is that the improper distribution system of social wealth, rather than modern technology, has caused such a social problem.

First, it is obvious that the government is the one most capable and responsible for solving any social issue and ensuring social equality. **In order to bridge this wealth gap, the most effective and direct method should be taxation leverage, by which the government can use the rich people's tax money to subsidize the unfortunate.** So, the technology should not become the scapegoat of the issue.

Conversely, modern technologies indeed have provided great opportunities for the poor to be rich. For example, many people have become wealthy by setting their own commercial websites on

Internet. Compared with traditional companies that require large initial investment and higher operation cost, Internet is the cheaper and more accessible platform for ordinary people to make fortune.

Those who harbor the view that the technology has polarized the distribution of wealth around the world believe that the poor countries are getting poorer due to lack of creative technologies. Of course, this is a real phenomenon. But paradoxically, the right solution for those nations is just to introduce advanced technologies to improve the social productivity, which is like the age-old chicken-or-egg question.

In sum, modern technology plays a key role in filling the gap between the rich and poor not only for individuals, but for nations as well. In the era of the knowledge-based economy, the one who is diligent and can capitalize knowledge will eventually prevail.

新技术的运用是创造像比尔盖茨一样的百万富翁的重要方式之一。但是现在的争论集中在科技是否也增大了贫富差距。[读写互通] 我的观点是不合理的社会财富分配体系而非现代科技，导致了这样一个社会问题。

首先，政府显然是最有能力和责任来解决任何一个社会问题和确保社会公平的。为了缩小财富差距，最有效和最直接的方法应该是税收杠杆，通过它政府可以用富人纳税的钱去补贴穷人。因此，科技不应该成为这一问题的替罪羊。[重点句型]

相反，现代科技事实上提供了巨大的机会为穷人致富。例如，通过在互联网上建立他们自己的商业网站，很多人已经变得富裕。和需要巨大的初始投资和高昂的运营成本的传统公司相比，互联网对常人来说是一个更加便宜和可企及的制造财富的平台。[重点句型]

那些认为科技使财富在全球范围内两级分化的人认为，因为缺乏创新科技，穷国正变得更穷。当然这是一个真实的现象。但自相矛盾的是，对这些国家来说正确的解决方法恰恰就是要引进先进科技以提高社会生产力，这像是古老的先有鸡还是先有蛋的问题。[读写互通]

总之，现代科技在缩小个人之间以及国家之间的贫富差距上都起到一个关键作用。在这个知识经济时代，勤奋并能将知识资本化的人最终将获胜。

观点：人类合理利用动物是正当的

论据 1：自然法则，natural law, the law of the jungle

论据 2：动物对人类文明贡献大，KFC, MacDonald's even pets

Nowadays, an increasing number of people are concerned about animal protection and animal rights. However, whether we should utilize animals for the human purposes has caused heated debate recently. In my view, it is acceptable to reasonably exploit animals for the benefit of mankind and impossible to completely cut down the human's reliance on animals.

It is clear that human beings are standing at the top of the food chain of this planet. As big fishes eat small ones, mankind uses animals for its own benefits, which is consistent with natural law. So, it is hard to say that we are doing wrong by exploiting animals for our interests.

Moreover, it is unrealistic to ban using animals **since the history of human civilization is entwined with the history of the ways we have learned to manipulate animal resources.** We have raised cattle for food; the outcomes of animal experiments have saved many lives; people have even kept pets to satisfy their psychological needs. **If using animals were prohibited, we would firstly close thousands of KFC's and MacDonald's franchises[n.连锁店] around the world, because they are slaughtering lovely chicken to make money!** And everyone in this world would become a vegetarian[n.素食主义者].

This is not to say that it is always right for people to use animals for whatever purpose. Some people hunt wild animals just for fun; others kill rare animals for their expensive furs. **Indeed, these behaviors are not only cruel and unnecessary, but actually against long-term interests of human race.** Humans should shoulder their responsibilities of maintaining the diversity of wild animals and the balance of ecosystem.

In sum, using animals rationally for the benefit of humans is justified. Meanwhile, some behaviors that are harmful to both animals and humans have to be prohibited. **By doing so, we can ensure that our next generation could also exploit the animal resource.**

现在越来越多的人关注动物保护和动物权益。但是，我们是否可以为了人类的利益使用动物导致了热议。我的观点是，为了人类的利益合理利用动物是可以接受的，并且完全杜绝人类对动物的依赖是不可能的。

显然，人类是站在这个星球食物链的最高端的。就像大鱼吃小鱼一样，人类为了自身的

利益使用动物，这一点是和自然法则一致的。因此，很难说我们利用动物是错的。

而且，禁止使用动物是不现实的，因为人类文明的历史是和我们学会利用动物资源的历史伴生交织在一起的。**[读写互通，剑7第23页阅读文章首句改写]**我们饲养家畜作为食物；动物实验的成果拯救了很多人的生命；人们甚至饲养宠物满足他们的心理需求。**如果利用动物被禁止，那么我们首先要关闭上万的肯德基和麦当劳的全世界连锁店，因为他们正在屠杀可爱的小鸡去挣钱！[用虚拟语气表达反方观点的不现实]**世界上的每个人将成为素食主义者。

这并不是说不论怎样利用动物都是对的。一些人捕猎取乐；另一些人猎杀珍稀动物为了它们昂贵的毛皮。**事实上，这些行为不仅是残忍和没有必要的，而且也背离了人类的长期利益。****[重点句型-not only...but also...]**人类应该肩负起维护野生动物多样性和生态系统平衡的责任。

***Some people think that it is better to educate boys and girls in separate schools. Others, however, believe that boys and girls benefit more from attending mixed schools.***

***Discuss both these views and give your own opinion.***

剑 8 p173

Some countries have single-sex education models, while in others both single sex and mixed schools co-exist and it is up to the parents or the children to decide which model is preferable.

**Some educationalists think** it is more effective to educate boys and girls in single-sex schools **because they believe** this environment reduces distractions and encourages pupils to concentrate on their studies. This is probably true to some extent. It **also** allows more equality among pupils

and gives more opportunity to all those at the school to choose subjects more freely without gender prejudice. **For example**, a much higher proportion of girls study science to a high level when they attend girls' schools than their counterparts in mixed schools do. Similarly, boys in single-sex schools are more likely to take cookery classes and to study languages, which are often thought of as traditional subjects for girls.

**On the other hand, some experts would argue that** mixed schools prepare their pupils better for their future lives. Girls and boys learn to live and work together from an early age and are consequently not emotionally underdeveloped in their relations with the opposite sex. They are **also** able to learn from each other, and to experience different types of skill and talent then might be evident in a single gender environment.

**Personally, I think that** there are advantages to both systems. I went to a mixed school, but feel that I myself the opportunity to specialise in science because it was seen as the natural domain and career path for boys when I was a girl. So because of that, I would have preferred to go to a girls' school. **But hopefully** times have changed, and both genders of student can have equal chances to study what they want to in whichever type of school they attend.

孩子看电视利弊讨论

五段式范文

Some people think watching TV is bad for children, while others think that watching TV has more beneficial effects on children.

*Discuss both sides and give your own opinion.*

Watching TV is one of the most important children's leisure activities. However, whether it brings more harm than good has caused heated debate. My view is that too much time spent on it surely has negative impacts on kids and parents should filter out the inappropriate programs and channels for them.

**With the rapid development of science and technology**, TV shows are designed so vivid and attractive that not only kids but even adults are much easier to get addicted to them. When children spend more time sitting in front of a screen, they are isolated from the real world. They don't have enough time to socialize, to engage in outdoor activities which are crucial for their physical growth. Also, their eyesight will be weakened by staring at the screen for too long.

Moreover, questionable contents on TV will have negative effects on children since they are impressionable. **The fact that many developing countries including China lack TV program rating**

system means that children are more easily exposed to indecent TV scenes. So, TV is not always a good one in the sense that parents really cannot control what comes on the screen.

Of course, there are many educational and inspirational TV shows, such as Disney cartoons which enable kids to have fun in learning process, facilitate their intellectual development and help children learn caring, sharing, courage, honesty and other virtues from an early age. These benefits of TV on children's education cannot be denied.

In sum, spending long time watching TV is harmful and parents should either follow TV rating guideline or carefully choose the programs for children.

孩子看电视利弊讨论

四段式范文

Some people think watching TV is bad for children, while others think that watching TV has more beneficial effects on children.

*Discuss both sides and give your own opinion.*

Watching TV is one of the most important children's leisure activities. However, whether it brings

more harm than good has caused heated debate. My view is that parents have an essential role to play regarding to this.

Some educationalists think watching TV is potentially harmful to children because when they spend more time sitting in front of a screen, their eyesight will be weakened and kids don't have enough time to engage in outdoor activities which are crucial for their physical growth. This is definitely true. The questionable content on TV can also cause negative implications. The fact that many developing countries including China lack TV program rating system means that children are more easily exposed to indecent TV scenes.

On the other hand, some experts would argue that the educational and inspirational TV shows enable kids to have fun in learning process and facilitate their intellectual development. For example, many children have learnt caring, courage, honesty and other virtues from the characters in classic Disney cartoons. Moreover, watching TV can be an important parent-child activity. Accompanying with kids to watch their favorite shows is a great opportunity for adults to have common topics and increase intimacy with children, to communicate deeply with them, and to fully read their minds.

Unfortunately, I don't think most parents have realized these points. Some even treat TV as a good babysitter to keep kids busy. It is parents' responsibility to control the time kids spend on TV, choose the suitable program for them, and most importantly, enjoy it together with kids.
