得分点1：清晰的文章分段

1.introduction (背景+改写题目+个人立场)

The influence of computer technology is a thorny issue that confronts many countries all over the world. The issue about whether this development can produce positive impacts or not remains controversial. In my view, it will generate enormous benefits to the public.

BP1:Indeed, the advancement of computer technology would cause job destruction.

BP2: However, the fast development of computers can positively contribute to job creation.

4. Moreover, computerization can help human beings to cope with substantial social problems.

5. To conclude, while some people are concerned about the negative impact of computer technology on the employment aspect, I still harbor the view that this development can positively contribute to the whole society. In the long run, our human beings can significantly benefit from the advancement of high technology.

得分点1：清晰的文章分段

- 讨论文体

Discuss both views and give your own opinion.

What are the advantages and the disadvantages?

7. Some people believe that studying in a college or university is the best way for students to prepare for their future career. Others think they should leave school as soon as possible to develop their career through work experience. Discuss both views and give your own opinion.

1. Introduction

How to prepare the young for their career development is a pressing problem that confronts many countries all over the world. The issue about whether they should receive higher education or enter the workforce remains controversial. In my view, it is a subjective issue.

2. 第一方立场理由

3. 第二方立场理由

4. Conclusion (回应个人立场)

得分点1：清晰的文章分段

● 报告文体

Why is this the case? How to solve it?

These days, an increasing number of people from many cities know little about their neighbors and do not have a sense of community. What do you think are the causes and what solutions can you suggest?

1. Introduction

The relationship with neighbors is a pressing problem in modern society. In my view, the reasons leading to this trend are manifold, and this can be reversed.

2. 第一个原因

3. 第二个原因

4. 解决措施

5. Conclusion

To conclude, although it seems rather challenging to strengthen the bond with neighbors, it can be achieved through combined efforts. After all, in the long term, it can be beneficial to social harmony.
