个人立场：while reading books for pleasure is more beneficial for children's imagination than watching TV, I still believe that both ways can be equally important in their intellectual development.

X2  
认准李仙童 雅思稳准狠

主体段落一：Reading is instrumental in **developing children's imagination**. Without any clues like audiovisual demonstrations, a kid reading a fairy tale with illustration can feel free to think, fantasize the plots and use their creativity to comprehend the underlying meanings behind the story, which can in turn positively contribute to their mental abilities. However, watching TV or playing computer games might restrict their imagination since **all** the scenes are directly shown to them. Thus, educationalists still advocate more reading and less reliance on TV and computers.

主体段落二：Nevertheless, when it comes to **children's intellectual development**, watching TV or playing computer games can also bring positive effects. With vivid pictures and animations, children can be inspired and motivated to watch a variety of TV programs which can enable them to acquire a wide range of knowledge in a simple way. For example, by watching a travel channel, children can be exposed to rich information ranging from culture to geography. Compared with computer games and TV programs, books seem to be somewhat monotonous. Therefore, many people view mass media as a way to

2

learn in fun.

孩子成长的几个方面：

- intellectual development (the expansion of knowledge; the cultivation of independent thinking /creativity)
- social development (interpersonal skills; adaptability )
- healthy growth (physical health; mental health)
- the positive worldview

4. It is more important for students to study art and literature than it is to study math and science. To what extent do you agree or disagree?↵

3. Studies show that many criminals have a low level of education. For this reason, people believe that the best way to reduce crime is to educate people in prison so they can get a job when leave prison. Do you agree or disagree?↵

6. It is a natural process for animal species to become extinct (e.g. dinosaur, dodos ...). There is no reason why people should try to prevent this from happening. Do you agree or disagree?

8. The society would benefit from a ban on all forms of advertising because it serves no useful purpose, and can even be damaging. Do you agree or disagree?←

10. Many museums charge for admission while others are free. Do you think the advantages of charging people for admission to museums outweigh the disadvantages?
