

• *Part3*练习

• *What are the negative effects of not getting enough sleep?*

- *Well, there are tons of negative effects. Um, good sleep allows people to better retain information, so those who are sleep deprived can't absorb as much information as they want. This is particularly a problem for students who sacrifice their sleep to study. Their hope is to perform better in the classroom and in exams, but the reality is, they are not reaching their full potential because of the lack of sleep. So I think teachers have to play a larger role in encouraging students to get more sleep every day, for their health and also for their academic performance.*

This is particularly a problem for students who s____p to study. Their hope is to p____r in the classroom and in exams, but t____s, they are not r____l because of the lack of sleep. So I think teachers have to p____e in encouraging students to get more sleep every day, for their health and also for their a____e.*

- *What can be used to show someone's social status?*

- *If we're talking about someone having a great amount of wealth, well, it can be shown through the house they live in, the car they drive, and ... perhaps also the watch they wear. I think houses and cars are obvious, but as for watches ... people wear them to tell the time, but now that we have our phones for that, watches have become fashion accessories and um, having a really expensive branded watch can make someone look like that they're wealthy and come from a higher social status, I think.*
